Petition to Delta Stewardship Council*

For June 22, 2017 Delta Stewardship Council Meeting

We, the undersigned, are residents of the State of California. We request that you, Members of the Delta Stewardship Council, withdraw the Delta Plan Amendments for Conveyance, Storage Systems, and the Operation of Both at this time. We request also that you withdraw the Notice of Preparation (posted March 16, 2017) of Draft Program Environmental Impact Report at this time. Your proposed Delta Plan Amendment states that the California Department of Water Resources (DWR) and the U.S. Bureau of Reclamation “should pursue a dual-conveyance option for the Delta.” We are convinced that contrary to the representations made to the public by your Chairman and Staff, the only reason you are seeking to take action on the Delta Plan Amendments promoting dual conveyance at this time is to facilitate and aid the approvals and development of the California Water Fix Delta Water Tunnels project.

There are several reasons why the intent to facilitate the Water Fix Tunnels project is clear. The Water Fix Tunnels project is the only dual-conveyance project out there and is the project that DWR and Reclamation are trying to carry out. You know that “elephant” is in the room but you are trying to ignore it. It makes no sense to adopt a plan amendment promoting dual-conveyance before: revising other parts of the Delta Plan; setting the “quantified or otherwise measurable targets

associated with achieving reduced reliance on the Delta” and “restoring more natural flows” required by the Trial Court Order and the Delta Reform Act; and determining “the flows necessary for recovering the Delta ecosystem and restoring fisheries” to “identify the remaining water available for export and other beneficial uses” required by the Delta Reform Act. Since both the law and common sense require that you would determine how much, if any, water remains available for export before promoting dual-conveyance over existing through-Delta conveyance, it is clear that you are proposing to act now in order to please the Water Fix Tunnels proponents instead of carrying out your duties under the Delta Reform Act to be good stewards and long-range planners for the Delta.

Dacia Glauz	Vacaville, CA	2017-06-01	I am sick of wasteful spending on projects that decrease the value of our home state and ignore existing infrastructure needs.
mark kirkpatrick	Brentwood, CA	2017-06-01	Stop the tunnels
Ann Bowers	Stockton, CA	2017-06-01	I am signing because I work and live in the Delta and do not want this beautiful place to be drained and turned into a waist land.
Julie Duckworth Iljas	Discovery Bay, CA	2017-06-01	I am protecting our lifestyle, our community, and the value of our home.
Gregory Barnes	Bethel Island, CA	2017-06-01	It's not the proper solution.
Carolyn Phinney	Orinda, CA	2017-06-01	No tunnels. STOP. We have to protect our environment. This is California, not Trumpland.
Kate Considine-Baran	Camarillo, CA	2017-06-01	Restore the Delta, don't destroy it for fun & profits!
Steven Kost	Stockton, CA	2017-06-01	Please protect our Delta. Respect those who live in or near the Delta. Please listen.
FRANK LASITER	Oakdale, CA	2017-06-01	SIGNING IN OPPOSITION BECAUSE IT IS HORRIBLY WRONG FOR WILDLIFE AND FISHERY.
Clifford Anderson	Sacramento, CA	2017-06-01	Sucking more water out of the Delta isn't going to save it.
Robert Lyman	Lafayette, CA	2017-06-01	The tunnels will allow further decline of the health of the delta.
Jan McCleery	Riverside, CA	2017-06-01	It is wrong to destroy Delta communities, farms, and fish in order to continue exporting excess water to wealthy corporate farmers by I-5!
Kandace Korth	Isleton, CA	2017-06-01	I believe their are better ecological and financial ways to conserve water for our State than to build the twin tunnels.
Susan Gaines	San Pablo, CA	2017-06-01	I am signing because tunnels and the wrong solution and will destroy the Delta for no more water as well as the farmers in the Delta and the cities where the tunnels would be built. More storage, treating waste water and maintaining the levees make more sense NOT this Billion dollar waste of taxpayer and water district funding.
marie grant	Pittsburg, CA	2017-06-01	This tunnel idea is stupid, it has been promoted dishonestly, it is not in the interest of the health of the delta and no one profits but Brown and his cronies. Stop this fiasco now.
Robert Ackerly	Discovery Bay, CA	2017-06-01	The Delta Stewardship council is abdicating its responsibility of being a good and faithful steward (protector) of the Delta and blatantly supporting the only option that will truly destroy the Delta. The Council must stop and get through the basics before deciding that the only option being presented and pushed by the Metropolitan and Westlands Water Districts along with Gov. Brown is the one it should support as stewards of the Delta. The dual conveyance plan does not develop one new drop of water and does not solve one problem encountered in the Delta.
Kathi Kammerdiener	Prunedale, CA	2017-06-01	The tunnels are not the answer to California's water issues.
clark fratus	Livermore, CA	2017-06-01	I simply oppose the tunnels for all the right reasons plus some!
Sam Ruiz	Stockton, CA	2017-06-01	The tunnels do not create or store a single drop of water. The money would be much better spent creating more water storage to take advantage of wet years like this.
Bill Wells	Sacramento, CA	2017-06-01	Diverting the Sacramento River around the California Delta is a crazy idea that creates no new water, will destroy the Delta, and will be a huge financial burden on the good taxpayers of California.

David Zeff	San Francisco, CA	2017-06-01	The tunnels are a financial and ecological disaster. This State and Nation have to move to sustainability and preservation of the environment, not its continued destruction as these tunnels will assure. Save the Delta, Save the Bay, Save the Salmon.
Pamela Greaves	Vacaville, CA	2017-06-01	We should stop diverting water out of the delta. Our state is still moving water around based on an system that is 100 years old.
mark poulson	los angeles, CA	2017-06-01	The Delta is too important to the survival of the San Francisco/Delta region to allow it to be bled dry by San Joaquin water districts.
coburn ward	Stockton, CA	2017-06-01	The water is needed here for salmon and for Stockton. Furthermore it is financially irresponsible. .
Tom Ehmen	Livermore, CA	2017-06-01	This is all a money grab and they are destroying one of the greatest fisheries and estuaries on the planet.
Kenneth Luke	Brentwood, CA	2017-06-01	It affects all the businesses that rely on the delta for here livelihood and if passed would jeopardize thousands of home owners who have built there homes and family's here
Richard Laforge	Discovery Bay, CA	2017-06-01	I oppose the Delta Tunnels
John Ford	Hercules, CA	2017-06-01	We send enough water down south. Let them build their own reservoirs. I enjoy living on the Sacramento river. I do not want to live on a ditch.
Ann Rennacker	Ft Bragg, CA	2017-06-01	The tunnels will destroy the Delta, cause a mass extinction of Salmon, Steelhead and striped bass, cost millions in lost recreation, fisheries, agriculture, and ruin the scenic California we know. All for the greed of Southern California water grabbers! Do not allow these tunnels!
Margaret Cockerill	Stockton, CA	2017-06-01	We Need a comprehensive plan not one that serves the needs of just select section of the state while damaging or ignoring the rest of the state.
Bob Panzer	Vacaville, CA	2017-06-01	Your proposed plans and amendments appear to belie your purpose of being stewards of the San Francisco Bay Delta, instead circumventing measures to protect and restore our precious Delta. You must propose alternatives!
Channing Eayrs	Placerville, CA	2017-06-01	The tunnels will make the Delta a salt water estuary. Effect drinking water in multiple counties. We already have water quality issues with what water is taken south. It is a program to go around water rights in northern Ca. State has over committed water and the tunnels will only benefit the water brokers.
Patty Cimlov-Zahares	Oakland, CA	2017-06-01	This amendment for storage and conveyance is a terrible plan for the protection of the SF Bay Delta estuary.
Christine Rivera	Concord, CA	2017-06-01	Taking water from some to give to others is wrong. We need more ways to store the water when we do get rain.
Amy Brugger	Davis, CA	2017-06-01	Increasing water exports that bypass the Delta will eventually will destroy one of California's most precious habitats and further harm native fishes.
Gretchen Agha	Sacramento, CA	2017-06-01	I'm signing because the Delta Tunnels is an I'll conceived boondoggle that isn't in the interest of local water users or the taxpayers, delta farmers, and citizens who care about it, but rather a "legacy" project by Governor Brown to put his stamp on something, right or wrong.
William Poole	San Francisco, CA	2017-06-01	Keep Northern California's water in Northern California!
Joseph Rizzi	Benicia, CA	2017-06-01	No Tunnels, but if you just have to have them put the intakes at Sherman Island Sacramento River side to keep "Co-Equal" goals and only allow extra water for export.

Virginia McClain	Clarksburg, CA	2017-06-01	I am opposed to the tunnels. The science and math are all off. It is a water grab.
Diane Hoffman	Oakley, CA	2017-06-01	We must save our Delta waters for our farmers, unique beautiful wet lands, wineries, family's, marinas, family businesses & more. No to Tunnels! Let SO CA figure out their own issues.
Betty Liske	Stockton, CA	2017-06-01	The tunnels are a short sighted 'solution' to the complex issues of water distribution in California. Not to mention the huge and long term financial costs to ALL Californians. A much better plan is to invest the money focus and political commitment on well researched water conservation programs and infrastructure implementation as well as improvement of the health of the California Delta, Most likely at much less cost.
Marie Brennan	Red Bluff, CA	2017-06-01	I love the life of the Delta and don't want to see it murdered.
kerin gould	davis, CA	2017-06-01	Take half the budget for this disaster and spend it on re-tooling big ag to be water thrifty.
Sue Dennison	Santa Rosa, CA	2017-06-01	The Delta is too important to Northern CA to let So Cal drain us dry. We enjoy our Delta and don't want it taken away from us.

Judy Elrite	San Jose, CA	2017-06-01	I want to preserve the delta ecosystem and the human lives that depend on it
Daphne Osell	Atlanta, GA	2017-06-01	This is the wrong direction for California. I expect better from you, Governor Brown.
Charles Helfrick	Antioch, CA	2017-06-01	Wrong solution for water management!
Olga Jones	Bethel Island, CA	2017-06-01	The Delta must be saved from water hungry grabbers. It is a unique place in the United States. You have NO right to destroy or take from future generation.
Fred Hammond	Stockton, CA	2017-06-01	I strongly oppose the building of the water conveyance tunnels in the San Joaquin-Sacramento Delta.
Emily Pappalardo	Walnut Grove, CA	2017-06-01	The Delta Plan amendments do not follow the co-equal goals, particularly the goal of the Delta as place and thus should not be incorporated in the Delta Plan.
Daniel Lee	Alameda, CA	2017-06-01	Delta tunnels will ruin our estuary and SFBay.
Sandra Anderson	Discovery Bay, CA	2017-06-01	We should build reservoirs or look into desalination instead of disrupting and killing of natural and some endangered species that live in the delta.
Matt Ebert	San Mateo, CA	2017-06-01	I care about the health of my local ecosystems.
PAUL CARROLL	Suisun City, CA	2017-06-01	I want the Delta to remain a viable and useful waterway, for all, boaters, fish and other wildlife.

Steven Fox	Tracy, CA	2017-06-01	Twin tunnels are not the answer to adequate water supplies in southern California. Desalination plants & additional reservoir storage is what's needed. Those in favor of the tunnels are already aware that desalination & storage are the most economical & efficient solution to future drought & flood dangers. The tunnels are not a good way for Governor Brown to leave a "legacy". They only serve to put northern agriculture at great risk as well as the state's economic future well being resulting from that industry.
Janice Vick	Rio Vista, CA	2017-06-01	I am very concerned that the twin tunnels will destroy agriculture and wildlife in the Delta.
Kate Lenox	Sacramento, CA	2017-06-01	The tunnels are not my preferred method of conveyance. Is it preferable to devastate our Delta heritage? Is it preferable to endanger or drive to extinction our native fisheries? Other methods of water delivery must be considered.
Jacqueline DeLu	Sacramento, CA	2017-06-01	I am signing this petition to keep the San Francisco Delta healthy.
Bryan Carr	Los Gatos, CA	2017-06-01	Scientific evedience from countless sources has Indicated the Tunnels will destroy the SF Bay & C.A Delta. For the sole purpose of profit of Big Agriculture. No Thanks!
David Loeb	Berkeley, CA	2017-06-01	The CA Water Fix will NOT solve the state's water supply problems AND it will destroy any real opportunity to restore the health of the Delta for people and fish and birds.
Roger Mammon	Oakley, CA	2017-06-01	The Delta is important to the people, agriculture, economy, and water supply of northern California. It should not be destroyed to benefit corporate agriculture in the desert owned by just a few wealthy people.
Randall Riley	San Ramon, CA	2017-06-01	The twin tunnels will totally disrupt the Delta for years and years during construction. In the end, it will kill the Delta and probably the SF Bay since the water is not going where it should go . . . to the Ocean.
KATHERINE KNECHT	Novato, CA	2017-06-01	The tunnels do not help California.
Pamela Ramos	Arbuckle, CA	2017-06-01	We need to protect the Delta
Lynda Ives	Sacramento, CA	2017-06-01	The tunnel plan is wrong for the Delta and wrong for California.
Karl Miller Jr	Sacramento, CA	2017-06-01	Jerry Brown thinks he can save the planet, but in the process he believes he can destroy the largest estuary on the west coast. What's wrong with this picture?
evelyn bartley	Carmichael, CA	2017-06-01	I want to Delta restored
John Blackburn	San Francisco, CA	2017-06-01	We don't need the Jerry Brown folly Twin Tunnel "Water Fix" plan. We have the water we need, we just need to allocate and use it more wisely. And we need to think beyond tunnels and conveyance of more water resources to the south. This scheme is nothing more than payback to political contributors, just like Pat Brown's plans. If the "fix" moves forward, a ballot measure should be in order to let the citizens of California learn the truth about this scam, vote and decide, and based on the Pat Brown and the past lies and scan he pulled off on California voters, Jerry probably doesn't want this to happen to his legacy! Truth be known, California water users cannot afford the cost of the Water Fix and won't support it and that is what the powers that be are afraid of - why didn't Jerry and the legislature put the issue before the voters in the first place? Because they know the voters will see through their smoke and mirrors and turn the "fix" down at the ballot box, just like the Peripheral Canal. The "fix" is after all, Son of Peripheral Canal...

roger thibault	wesr sacramento, CA	2017-06-01	I'm signing because fish can't.
Mary Baker	Carmichael, CA	2017-06-01	This is a ridiculously expensive undertaking. Let Northern California keep its water. So Cal won't appreciate it anyway.
Elaine Hench	Stockton, CA	2017-06-01	I believe we should stop sending our water south. I would like to keep our Delta salt free.
Shiela Cockshott	Belmont, CA	2017-06-01	A healthy Delta is in the interest of all Californians. These tunnels must be stopped.
Kathleen Stevans	Pittsburgh, PA	2017-06-01	I care about the delta.
Kenzie Bruce	Vacaville, CA	2017-06-01	The tunnels hurt the Delta
Brian Johnson	Davis, CA	2017-06-01	This enormous project strips the Delta of its needed water volume and would destroy the Delta just to supply water to farmers in the valley and Southern California.
Sharon j Harvey	Pittsburg, CA	2017-06-01	Get real Brown!
Gary Buck	Galt, CA	2017-06-01	I don't want the Southern water districts to control the states water supply for their own financial gain.
Linda Panattoni	Sacramento, CA	2017-06-01	I believe that the Delta tunnels will change the ecosystem of the entire Delta and Bay area and be a negative to the rich argicultural land in the area.
Robert Gould	Discovery Bay, CA	2017-06-01	The delta has been part of my life since birth, it is one of the main reason i have stayed in this state and pay the expensive cost of living and taxes
Kenneth Gibson	Oakland, CA	2017-06-01	An agency established to protect the Delta should not facilitate its destruction simply to satisfy the political vanity of one politician.
Susan Hoster	Discovery Bay, CA	2017-06-01	Stop the tunnels

Raymond Brant	Walnut Grove, CA	2017-06-01	The Delta needs to be protected
Linda ellison	Discovery Bay, CA	2017-06-01	It would devastate our Delta and community. Look at the many findings that show the costs far exceed any benefits.
Kathy Garcia	French Camp, CA	2017-06-01	This is a horrendous idea on so many levels. Why it has been entertained is evidence that money speaks louder than the voices of the people or any concern for the land, local economy, environment, etc This is death sentence for Central California. There are far better ways to address our water problems than this.
DAVE KENDALL	Rodeo, CA	2017-06-01	Totally irresponsible govt. waste.
Janeane Corallo	Brentwood, CA	2017-06-01	The tunnels will kill the delta.
Michael McCleery	Discovery Bay, CA	2017-06-01	The science is clear (other than the scientist employed by DSC) that the tunnels and / or more water take from the Delta will further harm the already endangered estuary. Minimum water flows should be incorporated instead. A financial analysis of alternatives should be published before any vote takes place. Those alternatives should include more storage in lieu of tunnels.

Louis Erickson	Discovery Bay, CA	2017-06-01	I have lived in the Delta for fourth years and have been a Shepard protecting it for seventy years. Bypassing the Delta will turn it into a stagnat swamp and ruin our water supply, eco system, and our residential way of life. We live on the shores of the Delta and love it very existence. Please don NOT destroy our life and lifestyle. Sincerely Louis and Charlene Erickson PS I am a past Commodore of two Delta Yacht Clubs and a lifetime active user of the Delta
jim azeltine	oakley, CA	2017-06-01	I am signing because as far as I am concerned, the tunnels project is stealing the water from upstream to make it cheaper to treat for the wealthy interests pushing for it. It will result in a serious degradation in our water quality, ecosystem, and fishing industry to make profits for others.
David Witte	Castro Valley, CA	2017-06-01	The Delta Tunnels are not a solution and will not produce any more water. It has been claimed that they will not increase water exports; if that is true, why are they so large? Californians are too smart not to realize that once installed, the flows will be quietly dialed up without public input. We must stop ruining one of our States greatest natural resources. Stop the tunnels and fix the Delta!
George Cardinale	Brentwood, CA	2017-06-01	Let the southern agencies solve their own problems.
Josephine Jamieson	San Ramon, CA	2017-06-01	The salt water intrusion is killing the fish in the Delta.
HALLECK WILSON	Pleasanton, CA	2017-06-01	California and the Bay Area will suffer great loss if the delta is further stripped of its water for the sake of big agribusiness. Large areas of the state will be terribly impacted, as it is already by the canal taking vast amounts of water over the last fifty years. That sholud also be stoped.
Linda Hardcastle	Oakley, CA	2017-06-01	The tunnels would devastate our delicate Delta, ruining our fresh water, fish, & wildlife. It must be stopped.
Lauretta Aldridge	Brentwood, CA	2017-06-01	The plan underestimates the fresh water needs of the Delta and surrounding communities.
Dan Lucas	Auburn, CA	2017-06-01	More middle class tax dollars spent to benefit a few wealthy growers and developers. Tax lawns in southern Cal.
Rebecca Virta	San Jose, CA	2017-06-01	I want to see California protect our Delta waterways. No more tunnels.

jan hutcinson	berkeley, CA	2017-06-01	This is pretty obviously a water grab. The delta is the most valuable and also most vulnerable aquatic area in California. To preserve it must be our top priority
Edward Loosli	The Dalles, Oregon, AL	2017-06-01	The Bay Delta needs MORE FRESH WATER not less.
Thomas Coss	Brentwood, CA	2017-06-01	The tunnels will kill the delta

Jeanne France	Whitmore, CA	2017-06-02	Don't build the tunnels, it will destroy the Delta and Estuary, the largest on the west coast. Jerry only is pushing it to continue what his father wanted to do with the peripheral canal!
Frank Morgan	Discovery Bay, CA	2017-06-02	No water "fix" that diverts water under, over, or around the current Delta sloughs and rivers!

David Gloski	Bethel Island, CA	2017-06-02	The idea of tunnels and syphoning water from estuaries in this day and age cannot be justified. People building farms in a desert area should not feel like they can destroy another area to make their area valuable. If water is an issue, pay the price for desalinization and re-use, but don't destroy other areas.
Mike Bassi	Pinole, CA	2017-06-02	I am signing because the tunnels are a huge unneeded burden on taxpayers that will not deliver any more water than is available now. In fact, it has been scientifically proven that too much water has been taken south on a yearly basis. So much so that it is turning the Delta which I've called home for 62 years into a swamp due to over pumping to the south. I'm not a biologist, but it is very plain to see, that the first thing that needs to be established is how much water can be taken from this estuary before it has a negative effect on our ecosystem and its sustainability to ensure clean clear water for our community and wildlife as I knew it as a kid growing up. Let's put the truck in front of the trailer please.
Debra Meador	Sacramento, CA	2017-06-02	Build dams! Desalination plants.
J. Froiland	Rohnert Park, CA	2017-06-02	Greatest good for the greatest number. Remember?
adrianne wood	stockton, CA	2017-06-02	I love the delta and don't want it ruined forever
Susan Ongman	Los Gatos, CA	2017-06-02	I am signing because of the disingenuous and secretive approach being taken by advocates and proponents of the Delta Tunnels. ALL material facts regarding THE true costs and THE actual impacts to all of California need to be presented and revealed to the people of California in an open and straightforward manner so that the people can choose how to proceed. This should not be a backroom deal approved by appointed committees and councils. This Delta Plan should be opposed. I do oppose it.
Linda Hall	Discovery Bay, CA	2017-06-02	The tunnels will irreparably damage the delta ecosystem
Patricia Coles	Cupertino, CA	2017-06-02	I value the diversity of the Delta and suspect this will adversely effect the area!
Norman Ruddick	Oakley, CA	2017-06-02	I'm signing because these tunnels are a poorly thought out proposal and do not produce one more drop of water at an astonishingly high cost we can't afford.
Don Skoglund	Pleasant Hill, CA	2017-06-02	I am against the tunnels they want to put in to take water south from the north Delta
Ben Jacobs	Brentwood, CA	2017-06-02	I
Vicki Campbell	Fair Oaks, CA	2017-06-02	The tunnels are a disaster waiting to happen. Wrong solution.
Trent Starceovich	Sacramento, CA	2017-06-02	Delta tunnels are not the proper solution.
Michelle Coles	Burlingame, CA	2017-06-02	This will ruin the ecosystem of the delta/bay waterways.
Francis olson	rancho Mirage, CA	2017-06-02	I object to the railroading of the transfer of water to a closely held family corporation. The delta tunnels are designed to facilitate water transfers for the enefit of the A single familys interests. It is a classic example of corrupt political influence involvingCalifornia's highest elected officials.
Allen Duckworth	Paso Robles, CA	2017-06-02	The tunnels would destroy the delta.
Fritz Otiker	San Francisco, CA	2017-06-02	This does nothing to protect our water. Let's stop this before it's too late.
Jill North	Jackson, CA	2017-06-02	It is a crime to destroy the primary water feature of our state and the local environment to send our water to So. Calif. They need to take care of themselves and if they can't then no more developments.
Karla Frauts	Oakley, CA	2017-06-02	We do not want or need the Delta tunnels and completely disapprove of any water being moved from the Delta!
Nancy Combs	Richmond, CA	2017-06-02	The "tunnels" proposal is headed in the wrong direction. It exacerbates environmental problems.

John Olson	Clarksburg, CA	2017-06-02	DWR has forgotten that the original purpose for the BDCP was to justify getting the take permits that the SWP does not have in order to legally operate. The tunnels do not benefit or protect the endangered species that are impacted by the SWP, so the tunnel project should not be awarded take permits to operate the SWP. The DSC's charter is to protect the ecological values of the delta and the tunnel project is not compatible with that mandate so they must not endorse the tunnel project.
Judith Person	Pleasanton, CA	2017-06-02	The Delta is too important to drain
Doug Place	Lathrop, CA	2017-06-02	We need to save the Delta and save the water for cities of Northern California
Anthony Taylor	Sonora, CA	2017-06-02	Save the Delta!
Brent Gilbert	Brentwood, CA	2017-06-02	we defeated Moonbean the last time re the Canal that was construed to destroy the Delta and send our water South to the populace of voters. He has NO LEGACY and is using the tunnels as a way to build such for s failed governorship in the past. Father George Sr was successful with the CVC project. Little Brown has nothing and wants to be remembered! he will be remembered by the eminent domain of AG property to build the hi speed railroad to nowhere, among other folleys. On both the Rail and the Tunnels have been presented without voter approval. He lost the Canal as a concerted effort in N, CA was able to defeat it by VOTE, thanks to many. now he wishes to push this TUNNEL FOLLY thru without the entire State VOTING on how to spend OUR money that will destroy the Delta as we know it from the first Federal Reclamation ACT that established the richest AG area in CA
Loren Rhodes	Antioch, CA	2017-06-02	the tunnels will destroy the ecosystem of the entire Delta and will cost way more than the benefits it's supporters claim
Joshua Terry	Salinas, CA	2017-06-02	Protect the delta
JoAnn Smith	Sacramento, CA	2017-06-02	I oppose the twin tunnels that will devastate the Delta. There are other ways to share Northern California water. It is wrong to destroy one CA area to give the Sacramento River water to another CA area! So many alternate ways to share without destroying northern CA salmon industry, farming and surrounding area. Repair and maintain what we have! Greed can not be the only consideration!
Johanna Warren	Pleasant Hill, CA	2017-06-02	These tunnels, and this entire project will devastate our delta and eventually the San Francisco bay. The only people who benefit will be the owners of the tunnel boring machines. Stop it NOW. It's pure destructive madness. Excuse my emotional response. Look at the science.
Joan Buchanan	Alamo, CA	2017-06-02	We must now destroy the Delta and all the fish that depend on it!
Kerry Moore	San Jose, CA	2017-06-02	Water isn't just for people. We have to be part of nature not separate from it.
Gwen Cauthren	Santa Rosa, CA	2017-06-02	I have a home in Discovery Bay for 34 years. This will ruin the waterways we have enjoyed for decades.
Colleen Foster	Stockton, CA	2017-06-02	The tunnels by any other name are still unacceptable,...and not economically sound.
David Hurley	Stockton, CA	2017-06-02	This will only benefit a few incredibly wealthy farmers at the expense of the health of the Delta.
Ken Butori	Concord, CA	2017-06-02	The people of California need to know the facts of this water theft by teh Metropolitan Water District and Gov. Brown. Cliff Coler	Stockton, CA	2017-06-02	I think the water tunnel project is monumentally wrong for the ecological health of delta waterways and all of the adjacent farmland. This will cause the salt water from the bay to encroach further inland.
Cheryl flebut	Discovery Bay, CA	2017-06-02	These tunnels must be stopped!!
Jennie Olson	truckee, CA	2017-06-02	The water they ask for goes to golf courses, water parks, personal land scaping, and many other unnecessary reasons to transform the DESERT! H. Elmer Muller	Stockton, CA	2017-06-02	Oppose the Delta Plan amendments
David Nielsen	Stockton, CA	2017-06-02	I feel the tunnels are not needed and will damage the Delta. We already have water going down to Southern California.
Rod Kirk	San Jose, CA	2017-06-02	It is very clear that there are numerous things wrong with the Delta Tunnels proposal. It is very clear that there is a greedy group of people trying to go around the necessary legal and investigative steps to get their proposal approved. There are much better solutions to addressing the water issues in California. Listen to the Restore The Delta organization, they have the right idea!
Chris Calvi	Bodega Bay, CA	2017-06-02	Save Our Salmon! NO to corporate water grabs! We need to be patching leaks and fixing existing water storage/conveyance infrastructure with all the \$\$ being wasted on the proposed Delta Tunnels "fix".
Barbara Winter	West Sacramento, CA	2017-06-02	I'm signing to save the Delta..
Christine Thiem	San Diego, CA	2017-06-02	We need to stop the tunnels to save our water quality, wildlife, environment, farmers, and more.
James Potter	Brentwood, CA	2017-06-02	The Tunnels project will be devastatingly disastrous to the Delta ecology, farming, municipal water, S.F. Bay, wildlife, and recreation. No water should be moved out of the Delta, until there are more reservoirs to replace, the water to be conveyed. Reservoirs would be far less damaging to wildlife, and the ecology, while costing much less. Construction of barriers to protect the Smelt, from the current conveyance system, would also save billions of dollars. The Tunnel conveyance system is just a more costly use of old technology, to solve the States water issues. Technology has made it possible for desalination plants to be more cost effective, to provide water for Southern California. These suggestions can be applied, with less opposition, less time to fruition, and less damage to the environment. The Delta Stewardship Council, should be developing a better solution to the "Tunnels", instead of simply trying to justify them, as they are not considering other solutions. If you want to call the Council a Stewardship, then they should do what the name implies.

Sherri Quammen	Concow, CA	2017-06-02	These tunnels are a horrible idea that will destroy Northern California and all of its agriculture by stripping its aquifers and its rivers of precious water. We're talking about destroying the already dwindling salmon population and destroying millions of dollars worth of rice, almonds and walnuts just so that you can accommodate your campaign contributors in the Central Valley. We are also your constituents and we say that this is a horrible plan and that it needs to stop. The insanity of man is destroying the planet for future G generations and we can no longer be silent in the face of this idiocy and greed. No to the twin tunnel project! My tax dollars should not go to destroy my home, steal my communities water and ruin my neighbors livelihoods.
Chia Hamilton	Oakland, CA	2017-06-02	Our delta is live-giving
Derek Wallace	Woodland, CA	2017-06-02	The delta ecosystem must be left intact for future generations and wildlife. Stop Southern California's over population. Don't enable it and the Delta's expense. The tunnels are corporate theft allowed by corrupt politicians.
paige whitworth	Everett, WA	2017-06-02	My husbands family has been going to the delta for 3 generations. Timothy Becker	Stockton, CA	2017-06-02	Water is the key to life and Valley farming. Stop this insanity of ruining our Delta estuary system.
Shelbey Guardalabene	Rancho Cucamonga, CA	2017-06-02	This will destroy the Delta eco-system and there are better ways to handle the water problem in this state. Quit building needless trains and build water reclamation systems. Quit harboring people that don't legally belong here and provide that relief to our water problems.
Rick Allvey	Livermore, CA	2017-06-02	This is wrong.... California is growing the need for more water is needed. This plan does not address that need. De salination is needed up and down the state. Spend the \$ there

Jack Saunders	Stockton, CA	2017-06-02	The tunnels will critically erode the Delta ecosystem. They will be devastating to Delta agriculture, recreation, and fish populations. The tunnels will do nothing to create new water. The project will primarily benefit developers, corporate agriculture, predatory water districts and others who are willing to destroy the largest estuary on the west coast of the Americas for their own greed and personal aggrandizement. You will be complicit in the ensuing destruction if you support this unconscionable water grab. There are many alternatives to the tunnels that are cost effective and will serve to preserve the Delta while managing water in a more equitable fashion.

Alan Duran	Sacramento, CA	2017-06-02	The Delta Stewardship Council (DSC) has not been a good steward of the fish in northern California. It isn't the drought driving several species to near extinction, it has been the decision of water controllers to send more water to farms than to support the continued existence of fish. The fish need more water and, given the facts of history, we can't trust the DSC and others to make that happen. The tunnels they are facilitating will hurt the overall environment and the people of the northwest United States.

Gary Patton	Santa Cruz, CA	2017-06-02	The plan is more than dubious. IF there is any merit in it, the only way to find out is to have a robust and OPEN public debate. Nick Cloutier	Oakley, CA	2017-06-03	I don't want to see my river ruined
Christine Sloss	Oakley, CA	2017-06-03	The tunnels cannot possibly save the Delta or provide a consistent quality water system for this state!
Ken Peebles	Roseville, CA	2017-06-03	I care about California.
rhea blalock	Antioch, CA	2017-06-03	I live on the Delta. The state needs to take a look at how much of our foot rihht here in California is coming in from other countries. So build reservoirs in the central and southern areas, be responsible for the precious water you have downe in your mountains, you will have a great snow melt to fill your new reservoirs, which will cost the tax payers much less than the tunnels.
Roger Kelly	Stockton, CA	2017-06-03	As a lifetime resident of the delta I see many flaws in the tunnels. I live along the Calaveras River close to the San Joaquin River and have watched the rivers health dwindle. Because of over pumping and invasive species the fish population is in serious decline. We have sea lions, seals all the way up to Stockton BECAUSE OFF THE FISH DECLINE! The bay and delta is a beautiful place that needs our help. The tunnels won't make anymore water just damage what I love and call home. Don't let greedy politicians and private water agencies fool you its all about the money to them. This project has no cost benefit for California only the scum trying to promote it. Roger Kelly

Kathleen Stricklin	Los Angeles, CA	2017-06-03	I love the Delta and you can't kill it.
Daniel Witte	Castro Valley, CA	2017-06-03	<p>I believe the tunnels are a bad idea allaround. They will harm many groups of people including commercial fishermen, Delta farmers and recreational boaters.</p> <p>If the tunnels are put in place, the, the Delta farmers would not be able to farm because salt water from the bay would intrude farther into the Delta. Therefore, the farmers could not farm, because salt water kills plants.</p> <p>Also, the commercial salmon fishermen would not be able to fish because one of the largest salmon runs passes through the Delta to reach their spawning grounds. If there is no fresh water in the Delta, the salmon cannot spawn.</p> <p>When there are no salmon traveling back to the ocean, the fishermen have no fish to catch wich means no money. The commercial salmon industry generates \$250 million per year.</p> <p>Lastly, the Delta tunnels are not a solution to California's water problems because they do not produce any more than there already is. The DSC needs to drop the tunnels plan and consider other alternatives first such as repairing levies and fish screens along with desalination. As a boater who has cruised on the Delta my whole life, I really enjoy this wonderful place and would hate to see the Delta destroyed for no good readson.</p>
Carlos Sanabria	Brentwood, CA	2017-06-03	This project is bad for the health and proper functioning of the delta.
Krisys Paradise	Bethel Island, CA	2017-06-03	I'm signing because I care about the delta & the wildlife that live there. I care about keeping the water fresh. I live on the delta & id like it to remain the same.
linda cover	santa cruz, CA	2017-06-03	Massive geo-engineering is not the answer to our water needs.. restoring the delta, watershedas and wetlands are the solution that not only heals our land but stores and cleans our water as well. We don't need tunnels.. we need water storage in our aquifers and rejuninated wetlands
Ken Humphrey	Pittsburg, CA	2017-06-03	The tunnels need to not happen!
loetta vann	Silver Spring, MD	2017-06-03	pipng water to CA bypasses the opportunity for ground water percolation and takes water away from the rest of the state to be used by who??? for what purpose?
Janet Fulton	Davis, CA	2017-06-03	I am unequivocally against the construction of the Delta Tunnels.
Patricia Lind	Shasta Lake City, CA	2017-06-03	I am signing because the San Joaquin Delta is the largest estuary on the west coast and a fish cradle for many endangered fish. The tunnels, 40 feet in diameter would divert 9 000 thousand cubic feet per minute into the bay area to water companies that will sell water to southern California. The lack of this fresh water that never hits the delta from the Sacramento river will further destroy the Delta and our fish population.
Lynn Smith	Lodi, CA	2017-06-03	We cannot exist in this place without the Delta. We every water, air, or land creature including people. Dramatic climate changes will occur.
Caitlin Baird	Stockton, CA	2017-06-03	Fight for our home, water, and life. SAVE THE DELTA. It is our job as HUMANS. Stop the greed!!!
Jamison Pfeifer	Sacramento, CA	2017-06-03	I love my delta
Gene Herman	Berkeley, CA	2017-06-03	Water is precious for all people & critters...save the delta...no tunnels/peripheral canal.
susan pelican	woodland, CA	2017-06-03	This is a bad idea-- it trashes the Delta, steals more water from Northern California, and sends water to the westlands which is NOT farming friendly.

Debra Kiefel	Sonoma, CA	2017-06-03	The tunnels that would move water from the Sacramento area to Southern California is a really bad idea!!! This monstrous project would threaten water sources for the local people who depend on it, the SF Bay Area, as well as endangered species. Governor Brown and outside interests need to stop this destructive plan and find healthier ways to provide water for Southern California.
Bill Loftin	Discovery Bay, CA	2017-06-03	I'm signing because the very future of the Delta depends on stopping the water grab by the central valley water Barrons. the future of water for California water supply relies on finding ways for storing water from higher years of water flow, desalinization and recycling. it's just not right that our valuable resource of water can be up for the highest bidder. Lets get past the concept of transferring water to the highest bidder and on with the process of conserving and managing to the benefit of all including the wildlife that depend on it.
Kimberly Vital	Elk Grove, CA	2017-06-03	The delta needs to be left alone. The impact of these projects to wildlife, residents and small businesses is too great to allow.
Daniel McGinnis	Concord, CA	2017-06-03	I do not think this is a good deal for the people or animals that live near this valuable resource. I consider the project water theft by the wealthy and well connected.
Sonia Diermayer	Oakland, CA	2017-06-03	I do not want state taxpayers and urban water district customers to be on the hook for the potential billions in cost overruns for a project that may very well not provide them any additional supply reliability, will subsidize farming on poor Westside soils and will harm people and the ecosystem of the Delta.
sally cano	West Sacramento, CA	2017-06-03	It will save our drinkingwater,the fish our farmland,our way of life. The wet land, our ego sistem. And we will be able to have our fram to fresh food. If you don't it will be distorted. We will have nothing but salt water coming into the Sacramento river.from the bay and Ocean
Linda Carl	Fair Oaks, CA	2017-06-03	I oppose the Delta tunnels.
Susan Hernandez	Stockton, CA	2017-06-03	Devastating one area of the state to "water" another makes no sense (no matter how you try to hide the real agenda). Save our state Save the Delta!
Mark Johnson	GIBSONTON, FL	2017-06-03	Stop this crack pot scheme and become fiscally responsible with tax payer dollars! SCREW THE NUT FARMERS! SAVE THE SALMON! SAVE THE DELTA! SAVE SAN FRANCISCO BAY!
Dawna Johnson	Grass Valley, CA	2017-06-03	Please, stop this project. Save the Delta habitat.
alec chattaway	San Jose, CA	2017-06-03	I also consider the project water theft by the wealthy and well connected.
Joy Beum	Rio Linda, CA	2017-06-03	Stop destroying our Delta. It belongs to us citizens!
elaine hudson	citrus heights, CA	2017-06-03	The tunnel project is a horrible idea, a waste of money and a death sentence for much of the delta.
Michael Doninelli	Antioch, CA	2017-06-03	This is an outrage.
Patrick Schiller-Nunes	Sacramento, CA	2017-06-03	Please, do not proceed with the Delta Tunnels. I am a lifelong, native Central Valley resident and It will affect the northern central valley's ecosystem. Just like the when all the development and was happening in the 50's-70's that almost destroyed the Bay. Thank you.

Joshua Denney	Orangevale, CA	2017-06-03	<p>Good morning Governor.</p> <p>There was a time I gave tours to many adults and 4th graders in the California State Capital. I would always point out your painting and tell the guest, here is a panting of a man who's work is not complete yet.</p> <p>I now that is true. I will now put as much energy as I did informing guests in state government/history into understanding the horrible effects of your tunnel idea. Mike aughney	Petaluma, CA	2017-06-03	The tunnels will destroy our salmon fisheries
Gary Cottle	Fallon, NV	2017-06-03	We don't need any more almonds, Save the delta ecosystem from corporate farms and Jerry Brown..
PATRICE SENA	PASADENA, CA	2017-06-03	no to Delta tunnels
Robert Pressler	Los Angeles, CA	2017-06-03	I think it's a travesty to destroy the delta for profit. Make big ag be responsible and grow sustainable crops. Abd Gov. Brown and the Water Agency's need to start being honest and open not trying to hide behind rules, plans , pr and double talk.
Andrew Chatoian	Elk Grove, CA	2017-06-03	Discusted with the self serving California politicians running rough shod over the taxpayers. These tunnels will devastate the economy's of the small Delta communities that rely on farming, and water related recreational actives for their livelihoods.
Mary Sterling	Stockton, CA	2017-06-03	We need to stop the tunnels and save our Delta ecosystems.
patti stark	bass lake, CA	2017-06-03	We need to stop the tunnels!
Richard Fraites	Novato, CA	2017-06-03	Stop this insane proposal. Hasn't agriculture in California done enough damage to California's environment? Yet Ag in the Central Valley continue to add thousands of NEW acreage in production...even during the drought! Let the corporate farmers pay for Brown's Boondoggle. Enough already!
Arturo Torres	Carlsbad, CA	2017-06-03	We need to protect the species who require a healthy delta. No private development of an essential resource. Keep water in public hands.
Jeffery Haws	Tracy, CA	2017-06-03	Enough with trying to destroy our delta with greed!
John Brennan	Mount Shasta, CA	2017-06-03	Open debate is the best forum for a decision of this magnitude
Mike Smith	San Francisco, CA	2017-06-03	I'm signing because the salmon are clearly going extinct and they need water to survive. If lack of water doesn't kill them then the pumps at Tracy will.
Summer Simoes	Walnut Grove, CA	2017-06-03	This would ruin the economy of the delta community along with our eco system. If people can't enjoy the delta tourism will die. We have put a lot into out towns you bring back the tourism and those who should be looking out for us are wanting to destroy it!

Anne Marroquin	Stockton, CA	2017-06-03	We the people are speaking!! Delta tunnels are a BAD idea!
Anne Newell	Discovery Bay, CA	2017-06-03	I live in the Delta, since we moved here 20 yrs ago, all the, fish have declined. It is a huge boating and recreation area for CA. Tunnels are not needed and will turn our rivers brackish and further decimate wildlife!!! NO TUNNELS!
John Toeppen	Livermore, CA	2017-06-03	We don't want the tunnels. We want to keep our water and not give it away, while paying for the fricking tunnels! Fix what we have.

Jennifer Schultz	San Diego, CA	2017-06-03	I'm signing because the tunnels will do more environmental damage, and because So-cal needs to ween itself off imported water. Stop the tunnels and restore Owens Lake.
Valerie Aubrey	Susanville, CA	2017-06-03	This is a wreckless plan.
David Leca	Carmichael, CA	2017-06-03	We need our water up here and not farmed out to the highest bidder. Let LA find away to cut there water usage.
Frank Schulze	Santa Rosa, CA	2017-06-03	Our Moon Beam Governor will destroy Nor Cal with these unneeded tunnels. All that we value would suffer so that the water guzzlers in the Central Valley and SO Cal can keep on wasting water and build into the desert where no water is available. It is time for these people live within their means and stop the rampant over building of our state. How much is enough for these parasites
Molly Martin	San Francisco, CA	2017-06-03	It's a boondoggle
Noah Plaza	Sacramento, CA	2017-06-03	This project shows the gross unethical behavior of the current political system in California. It needs to stop.
Barbara Cornell	San Pablo, CA	2017-06-03	I strongly oppose the tunnels project which will ship massive amounts of water to the south without adequate safeguards to Northern California resources and the environment in the Delta. Too much power has already been given to the giant water districts of Southern California, and not enough emphasis on these interests conserving this precious resource.
Ron Benedix	Escalon, CA	2017-06-03	I've seen what Southern Ca. did to the Owens Valley!
Nancy DeLong	Vacaville, CA	2017-06-03	I care deeply about the ecosystem of my delta!
JANE EAGLE	GRATON, CA	2017-06-03	This is a short-sighted power/money grab. California needs to invest in desalinization plants for long range water sources.
Lawrence Leclerc	Lincoln, CA	2017-06-03	I am opposed to the tunnels getting built and damage to the delta enviroment. Tunnels redirecting Sacramento River water to Central and Southern California is not the answer, Unbelievable that after all these years nobody in California can figure out what to do with the water problems of this and they've been facing this problem for the last 100 years. Wait, build more reservoirs in strategic places to store water from wet years??
Lissa Coleman	Redwood City, CA	2017-06-03	No Delta water for Kern Co. fracking ! Salmon is life...stop draining their water ways
Roxann Mulvey	Mariposa, CA	2017-06-03	Intereference in the natural water cycle always ends badly. It is not sustainable. No delta tunnels!
michelle burke	Oakland, CA	2017-06-03	The tunnels are bad budgetting. Bad expense and bad ecology. Fix the reservoirs, agricultural water only for domestic food production, stop issuing permits for new housing construction in areas lacking sufficient local water, tier water prices in those same arid regions so that swimming pools and lawns are too expensive to waste water on. I see more conservation in NorCal where the water is plentiful than I ever have seen in SoCal where they are now demanding water whose taking will destroy fisheries and ecosystems with salt water intrusion.
Kurt Ongman	Arcata, CA	2017-06-03	Jerry Brown is two-faced when it comes to his environmental policies. He visited the Paris climate summit and made claims that California is cutting edge in when it comes to supporting the environment. The creation of the twin tunnels totally contradicts his environmental rhetoric and is nothing but the same old mistake that humans have made countless times before. Jerry needs to come out with his true intentions about what he wants to do the environment of his home state instead of this LA song and dance.

Mary McTaggart	Clarksburg, CA	2017-06-03	the Delta Tunnels project is an expensive, outdated, and totally misguided attempt to solve complex water problems within both the Delta and the state at large. Most people in our state do not even know what or where the Delta is; part of your job should be to educate the public quickly, thoroughly, and objectively, not take sides in a controversy that affects many more Californians than those of us who live in the Delta Primary Zone.
JACK FONSS	Clarksburg, CA	2017-06-03	I believe the tunnels will cause grate harm to the Delta Region. We will not be able to replace this CA. wonder.
Eric Steele	Redding, CA	2017-06-03	The tunnels will destroy the delta and be devastating to salmon and delta farmers
Charlotte Davis	Lodi, CA	2017-06-03	The Delta Reform Act is being glossed over, in the Delta Tunnels proposal. Requirements of the ACT must be upheld and stewardship as outlined met. To do otherwise smacks of current Republicans in Congress, changing/negating laws to suit themselves, rather than doing what is right. Doing what's right is called Integrity and we need Jerry to follow through, instead of robbing this area of water, wildlife and ecological diversity. Why should we in the north, providing rich agricultural goods, turn into a desert so more people can build houses in SO California.
Philip Nagata	Valley Springs, CA	2017-06-03	Our state needs new water. We don't need to spend billions of dollars to deplete water from one part of the state for corporate trees and nuts in another part of the state!!!
Gary Benaquisto	Santa Cruz, CA	2017-06-03	I'm a fisherman and I don't want to see our fish disappear, keep our water here where it belongs
Christie Burton	PITTSBURG, CA	2017-06-03	This is my home. The delta is our place of peace and fun.
Mark Krigbaum	Petaluma, CA	2017-06-03	Let's not destroy the delta! It's vital to all of California.
Michael Barry	Vacaville, CA	2017-06-03	Stop the SoCal water grab and support the fragile Delta ecosystem.
Eric Gaffaney	Brentwood, CA	2017-06-03	Because I fish these delta channels since a little kid and all of the small channels will be gone or no flow dew to the tunnels
Terry Mayfield	Ukiah, CA	2017-06-03	We need to protect the environment of the Delta and the San Francisco Bay. This year we had a lot of rain after many years of below normal rainfall. Southern California needs to start developing desalination plants Now. We all need to eat so water for agriculture is important however sending more water south at the expense of the Delta and Bay is insane. Stop building if you don't have water and put \$\$ into storage and desalination in Southern California. The Tunnels are not the answer.
John Delgado	San Martin, CA	2017-06-03	It is important to maintain the Delta in it's natural state. Central and Southern California have not put in place conservation practices to save water. It is therefore not important to send Delta water only to be wasted by this tunnel system and the Bay Area left with limiting their use of water for such a wasteful system.
Nancy Houghton	Tracy, CA	2017-06-03	I live on the delta and do not want to see it destroyed for any reason!
janessa white	Galt, CA	2017-06-03	The delta must be protected from corporate greed. It's everyone's natural resource, for everyone to enjoy, maintain & protect. Let's keep the delta healthy for all !
Dora Wilson	Stockton, CA	2017-06-03	I want to protect the Delta Estuary and the eco-systems that rely heavily on on the water flow.

Cassie Webb	Sacramento, CA	2017-06-03	I am signing because I am opposed to the construction of the Delta tunnels. Californians have had enough of DWR and Southern California Water agencies that only answer to the super wealthy with no regard to the largest and most important estuary on the west coast.
Kimberly Stritt	Oakley, CA	2017-06-04	This is a blantant grab for profiting off the water. It is as anyone can see an ecological disaster if pushed through. How Gerry Brown whom I've always regarded as a politician with at least a conscious of the environment has promoted these tunnels; to me he just jumped into the swamp with all the others whom have no regard for the natural environment. Very sad and even more dissappointing.
Charlie Toledo	Napa, CA	2017-06-04	Delta tunnels will NOT make more water. WAAAAAY PAST time to create real solutions to California Water CRISIS!!! Severe statewide coservation NOW! 69% reductions NOW!!
Jerry Walser	Lathrop, CA	2017-06-04	Tunnels are a bad plan
Donna Fairchild	Elk Grove, CA	2017-06-04	The Tunnels will not add to California's water supply but instead will disrupt a fragile ecosystem and many families' economic lives.
Kevin Jameson	Livermore, CA	2017-06-04	Jerry Brown is an asshole.
Donna Vallee	Sacramento, CA	2017-06-04	I'm signing because I love ☐☐ the delta, I live on the delta
Colleen Fay	gridley, CA	2017-06-04	This farce need to stop. Brown wasn't able to build the peripheral canal last go round so he wants to do the damage this time. Enough!
Dan Washburn	Roseville, CA	2017-06-04	I'm signing because I spend a lot of time in the delta and believe removing more water will irreparably harm the delta.
Debi Melendres	Oakley, CA	2017-06-04	I care about preserving the delta.
Ruth Evans	Antioch, CA	2017-06-04	I support stopping the tunnels
Urmila SC	Santa Cruz, CA	2017-06-04	The tunnels pose an ecological threat to the flira and fauna as well as overall health of the river and lical agriculture
Kevin Linehan	Murrieta, CA	2017-06-04	Keep the water in the Delta. I strongly oppose the Delta tunnel plan.
Nancy Van Meter	Pittsburg, CA	2017-06-04	How many green lawns and water wasting did I have to see down south? The north, and our precious delta is such a delicate balance. Please don't allow the tunnels. During this last rainy season, how much rain storage did these water guzzlers actually save? Please! Please!
Pat Smyklo	Oakland, CA	2017-06-04	haven't heard of this but sounds bad.
Rocky Rushing	Sacramento, CA	2017-06-04	The tunnels are more a monument to ego rather than a desire to save the Delta. I grew up fishing on the Delta and I want to see it restored, not destroyed!
matthew whitley	auburn, CA	2017-06-04	Waste of money. It would be better spent building cisterns, new rain capture systems, water permeable roads, desalination plants.
Douglas OConnor	San Francisco, CA	2017-06-04	The tunnels are flawed. What if the tunnels were stuck open? Could CA really fall into the ocean?
Brian Mata	Sacramento, CA	2017-06-04	We need to protect our waterways and ecosystem. Once the Delta smelt disappear, it will affect all the animals in the food chain above them, and no amount of money will bring them back.
stormy burrell	Elk Grove, CA	2017-06-04	I don't support the tunnels, we love the delta
Melanie Kaufman	Citrus Heights, CA	2017-06-04	The Delta Tunnels are bad for California's water supply. I stand with all the experts who are against them. NO to the Delta Tunnels.

Patricia James	Brentwood, CA	2017-06-04	I live near the Delta. I see its beauty and its resources everyday. It sustains areas outside it's 1100 miles of waterways. From wild life to farmland, it belongs where it is. Please find some other source for Southern California. Depletion of our Delta would be vastly detrimental! Our water resources are precious and few; especially when bringing more and more people into this state and we are just recovering from a drought. Slow it down please.
Aaron Peters	Oakley, CA	2017-06-04	I live on the Delta
Susan Hobbs	Sacramento, CA	2017-06-04	Human interventions to move water from one part of the state to another have historically been detrimental to the environment, and I see nothing about this latest plan to suggest it will be any different.
Elaine Boedecker	Fair Oaks, CA	2017-06-04	The Delta Tunnels are not environmentally safe. They serve big Ag and powerful water districts while risking clean water, marine life and the farming communities in the Delta. It is too costly to derive any benefits from. A boondoogle project of Jerry Browns. Money better spent on water storage, dam safety and other needs of our state.
Mark Grexton	West Sacramento, CA	2017-06-04	I've watched the gradual decline in the delta fisheries increase with how much water corporate agriculture takes out. Let's not let our Delta die because we want to keep almond prices in China low. NO TUNNELS.
Sean ring	Stockton, CA	2017-06-04	I live my delta and love my delta. This will cause a lot of problems everyone in California should be able to agree with. No to the tunnels
Cherie Mietz	Santa Cruz, CA	2017-06-04	I oppose the Delta Plans Amendments because I am opposed to the diversion of Delta waters which will result in increased salination of the fragile aqua system.

shalom simms	San Francisco, CA	2017-06-04	Moving water that is naturally there rather we had good rain/winter season or not. Why move water to pretty much what is naturally a dessert then when we don't get rain the whole state pays. How about you tackle the Nestle corp. not taking any from northern Cali 1st.,then after that not let the wealthy use water for their own amusement. Leav the wetlands alone I can see a difference after we hav had a good rain season right off of Hwy 37.

Westfield just got bailed out by the feds.Taxpayers will be stuck with the bill and the ruination of the Delta The DWR is in the bag with Jerry Brown. We will not stand for the destruction of the Delta
Olympia Beltran	San Diego, CA	2017-06-04	Healthy waters require healthy, free-swimming, fish. The Tunnels would be a detriment to the health of chinook salmon and other fish in the Delta watershed, and we cannot allow it to be swept into legislation buried under the guise of other things.
Bob Altmeyer	Shingle Springs, CA	2017-06-04	The delta diversion tunnels will ruin the delta for fishing, especially for sturgeon, salmon and stripers. I cannot believe this project would pass federal enviornmental regulations.
Elizabeth Lasensky	Davis, CA	2017-06-04	The Delta is too important to leave in the hands of for-profit water districts and their wealthy owners.
Kathy Hess	Rocklin, CA	2017-06-04	We must keep our water in Northern California to protect our fish! Let some green golf courses turn brown.
Lawrence Murray	Sacramento, CA	2017-06-04	California needs to have a living bay not a dead one. Will you next build a dam at the Golden Gate
Larry Cates	Oakley, CA	2017-06-04	This will ruin the delta and I have hunted and fished on this delta all my life and have seen all the changes for the worse ever since this water grab has started
Tony Allegro	Brentwood, CA	2017-06-04	We need more new water storage not new conveyance systems.
Lucile Meinhardt	Antioch, CA	2017-06-04	The health of our state is reflected in the health of our delta. The tunnels are not the way to rescue the time declining delta.
Michael Seaman	Arden Arcade, CA	2017-06-04	It is wrong to destroy the Delta, ruin the Delta's local economy, threaten the Bay-Delta ecosystem, and harm Northern California's commercial and sport fishing industries by ramming through -- against public comment and actual science -- the Delta Tunnels Boondoggle, a massively expensive public works project of questionable value to anyone except Corporate Welfare Queens like the Resnicks, Big Oil Frackers like Chevron and Sleazy Water Purveyors like Westlands while conning the public with deceptive public relations ploys that claim the project will "fix" California's water problems when it won't and while ignoring or belittling other statewide water use efficiency solutions that are far less expensive and light years less damaging to the environment.
sarah brooks	Redway, CA	2017-06-04	The fish will suffer and so will we.

Susi Bracco	Discovery Bay, CA	2017-06-04	What Jerry Brown and his Southern California cronies are doing is criminal. Jerry Brown needs to be called on the carpet for his reckless disregard for the legal process that needs to be followed before forcing this boondoggle project on California. California voters need to recall this crooked career politician before he ruins the state any more than he already has.
Patricia Finnegan	Alameda, CA	2017-06-04	Our rivers have been flowing to the Bay for million of years. Diverting them with tunnels is unnatural.
Bryan Stevens	Manteca, CA	2017-06-04	We don't need tunnels and will further destroy one other best bass fisheries in the world. Southern ca just needs to build more dams as salination plants
Martin Iseri	Fair Oaks, CA	2017-06-04	Keep Sacramento delta beautiful for future generations.
Shaun Zaworski	Santa Ana, CA	2017-06-05	Please don't destroy our lands. I understand the perpetual machine we pretend doesn't exist is simply fulfilling the third law of thermodynamics. But in all seriousness, we can't allow all life to be affected by human activity. Similarly, we wouldn't want all life to affect human activity. It's a give and take. Ultimately it's all give until the end, so what will you take?
Linda Taylor	Discovery Bay, CA	2017-06-05	This is going to ruin the Delta ecosystem and my lifestyle. We have lived here for 30 years and never dreamed the state would ruin our delta!
Socorro Vizcaíno	Antioch, CA	2017-06-05	Why we have to be destroying all natural resources that God has created for our benefit and comfort?
Sally Rist	Alachua, FL	2017-06-05	OMG! Why do we continue to make bad choices? Have these people doing this no children or integrity???? Does it HAVE to be about money all the damn time ????
Heather Sears	Albion, CA	2017-06-05	As a second generation CA commercial salmon fisherman I feel more acutely the effects of water mismanagement in the delta than most. I strongly oppose the twin tunnels plan. Ca King salmon and the people and communities who depend on them require a healthy delta ecosystem.
Dianne Schattler	Ashland, OR	2017-06-05	Mother Earth yes NO!
Estella Drake	Sacramento, CA	2017-06-05	Save our Delta...NO TUNNES Jerry Brown. What the heck is mentally wrong with you.
Susan O'Hara-Jones	Tracy, CA	2017-06-05	There is no legitimate reason to send water past the valley to the south.
Teri Prevost-Schlee	Vallejo, CA	2017-06-05	These tunnels need to stop. Save the Delta!
David Wells	Modesto, CA	2017-06-05	I believe the Delta tunnels would destroy the Delta we know and love today.
Mark Adams	Morgan Hill, CA	2017-06-05	I oppose the tunnels and the money being wasted on them.

Steven Alvarado	Sacramento, CA	2017-06-05	There is not an oversight of the impacts to such an ambitious project to remove this much water from the delta shed.
cheryl blair	Pleasanton, CA	2017-06-05	The tunnels are a really bad & expensive idea.
Elizabeth Hoeper	Sacramento, CA	2017-06-05	There's an ecosystem near to my heart that's very existence is being threatened
Phyllis Kellogg	Roseville, CA	2017-06-05	I am signing this because I feel that building of the tunnels will be bad for the ecological environment in the rivers and Bay Area
Karl Splaine	Brentwood, CA	2017-06-05	I care about my drinking water and the health of the CA Delta.
Tara Parker	Davis, CA	2017-06-05	The Delta is an invaluable asset to California as a whole, and we cannot cut corners or further damage its delicate balance with short-sighted policies!
PHILLIP RAIMONDI	Sacramento, CA	2017-06-05	Clearly, the proponents of the tunnels are aware that most people oppose destruction of the delta ecosystem for the expansion of agribusiness and development in southern California. This is why such deceptive tactics are being used to put the tunnels in place. These tunnels are not in the public's best interest.
Suzanne M. Jarrett	Shingle Springs, CA	2017-06-05	This is the worst idea ever and will cause irreversible damage to our wetlands that support fish and wildlife. along the delta.
Pamela Connelly	Antioch, CA	2017-06-05	The way DeltaTunnels need to be stopped, there are so many other issues California's tax dollars should be spent on, instead of ruining our beautiful waterways

Ken Crabtree	Sacramento, CA	2017-06-05	This environmental catastrophe has got to be STOPPED!
Betty Compilli	Clayton, CA	2017-06-05	I work for Contra Costa County Farm Bureau. It has come to our attention how devastating these tunnels would be for local farmers, let alone take land away from them through eminent domain. I also live in the Delta region and do not want to see it destroyed.
JoEllen Arnold	Sacramento, CA	2017-06-05	Water in the Delta needs to flow to the bay, not south.
James Culp	Pittsburg, CA	2017-06-05	I'm signing because I live in discovery bay and the delta is our home. if the tunnels were to be built it would ruin the delta as we know it.
M. Madeleine Cook	Stockton, CA	2017-06-05	We, as temporary residents of this beautiful earth have a responsibility to preserve our unique estuary, not destroy.
John Myers	Hayward, CA	2017-06-05	I am a fisherman who cares for our ecosystem.
lawrence abbott	San Leandro, CA	2017-06-05	Water is life for the delta and bay. People must stop taking so much from nature. We must stop expanding, and live within our means now, or we will destroy everything including ourselves.

Francine Podenski	Walnut creek, CA	2017-06-05	It's important to preserve he Delta. Seems some in CA have been trying to destroy this eco system and take the water for their own commercial purposes. SAVE THE DELTA! It's critical habitat and also critical to the SFBAY community.
Melanie Stradan	West Sacramento, CA	2017-06-05	The proposed tunnels would drastically & negatively impact the Delta's fragile ecosystem. NO TUNNELS!
Rudy Nelson	Lodi, CA	2017-06-05	I love the delta and all will suffer if tunnels are built.
Nancy Hawkins	San Francisco, CA	2017-06-05	I believe the delta needs saving. No tunnels!!!!
ayana baltrip	San Francisco, CA	2017-06-05	Please sign and share. All nature must be preserved.
Donna Lagano	Oakley, CA	2017-06-05	We need to stop the Delta Tunnel project. It is bad for California
Jackie Barton	Herald, CA	2017-06-05	Changing the Delta to provide water to Southern CA, Westlands Water District etc is WRONG. It is all for greed of more building, developments and not thinking of future generations.
Renee Painter	Stockton, CA	2017-06-05	According to THE FACTS pertaining to water rights, the State needs to rectify and adjust these abusers of our water. Some are not monitored but rather pump and drill and drill more and more and more. The State cannot overlook the waste. How much of what is grown stays in tthis State? How much is sent OVERSEAS for millions of dollars without thought or concern for what Agribusinesses and bottled wayer companies are doing to drain this State of every drop for PROFIT. Is it all about THE MONEY? I believe the water is going to Kern County for Fracking and I am opposed and will f fight to as much as poossible to prevent the water grab!
Lynne Dunlap	Torrance, CA	2017-06-05	Because I care!
Melinda Haber	San Francisco, CA	2017-06-05	The Tunnel project is not about need, it's about greed. This project will adversely affect our water quality, the eco system from the Sierras to San Francisco Bay, take family's homes on many farm via imminent domain, and ravage productive fame land. I am deeply disappointed in Governor Brown for backing the Tunnel project against all common sense and the well being of NorCal citizens. NO TO THE TUNNELS. (Brown has nothing to lose as he probably won't run again for any office in California. I fear he doesn't truly care whether or not he does the right thing).
April Schneider	Pacifica, CA	2017-06-05	Diverting water from the delta will only exacerbate the salinity problems already faced by the area farms and fish.
Natalie Holcomb	Stockton, CA	2017-06-05	I'm signing because these tunnels will ruin the Delta and I do not want to see it destroyed. Why should we send our water to the South, when they have the ocean right at their doorstep. Build desalination plants instead.
Peter Precissi	Lodi, CA	2017-06-05	The Delta and SF Bay are my back yard. This is big \$ stealing what they can't get legally. If it looks like a duck, walks like a duck, you get the picture. They'll stop at nothing. They have no morals. All lies.

Kelly Heath	Napa, CA	2017-06-05	These tunnels will ruin the immense joy I have every summer enjoying the Delta Waterways, as well as the marine life and water for surrounding cities such as Stockton and Sacramento. This will be the biggest disappointment the CA Gov't has ever made. To ruin our water for the agribusiness of the almond is pathetic. One gallon needed for each almond. Karma will come to you Governor Jerry Brown, you have sold your soul to the devil.
CHERYL SCHMIDT	Lafayette, CA	2017-06-05	This is another example of egregious erosion of values versus money and must be stopped. Please allow time for further investigation of the candidate and project.
Loretta St. John	Tacoma, WA	2017-06-05	I have family that live by the Delta and I visit there often.
William Kutzer	Wilton, CA	2017-06-05	I am signing this petition because the "Tunnels" are a disaster waiting to happen to the Delta. It will be a tragedy to see that beautiful Delta Ecosystem destroyed due to the egos and greed of the politically and financially driven people that are behind this disaster in the making.
Jacqueline Harris	Modesto, CA	2017-06-05	I'm signing because I think the tunnels would do more damage than good for the delta and I don't think the proper environmental protections have been addressed.
Laura Keister	Herald, CA	2017-06-05	IMO, all those FOR the tunnels are in collusion to line their own pockets with little regard for the people and farmers of the Sacramento Delta and surrounding areas. Governor Moonbeam needs to retire this project and his high speed fiasco.
Peggy Whalen	Danville, CA	2017-06-05	Stop the tunnels !
Elsa Walker	Soquel, CA	2017-06-05	It's all been said before. We in northern California should not support the greed of So. California developers at the expense of the environment!
Sherrie Barnett	Madison, CA	2017-06-05	This is the worst idea ever, it will take our northern California water to southern California. They need to find another way to save their own water!
Brian collard	Sacramento, CA	2017-06-05	We need to protect the Delta and our water, Southern Cali needs to be responsible for its self.
David Roche	Alameda, CA	2017-06-05	When farmers, boaters, environmentalist and fishermen are all against the tunnels-it must be a very bad idea.
Gordon McGuire	Kaneohe, HI	2017-06-05	I do not want the Tunnels project to continue forward. This would cause unnecessary damages to the entire delta region.
Nina Fenkell	Sacramento, CA	2017-06-05	The Delta is where I grew up. It is farmland that cannot be restored if destroyed by the tunnels.

Daniel Witte	Castro Valley, CA	2017-06-06	<p>The Delta is essential for California for many reasons. It is crucial for Commercial fisheries, Delta farms and boaters.</p> <p>If the California Waterfix is approved, many people will suffer including commercial salmon fishermen, farmers and boaters. The commercial salmon fishermen will suffer because the largest salmon run in California passes through the Delta to reach their spawning grounds. If there is inadequate flows of fresh water through the delta, the fish cannot access their spawning grounds. As a result, there would be no salmon in the ocean for the commercial fishermen to catch. If there are no fish, the commercial fishing industry would get no money. This industry generates \$250 billion per year. Also, the plan conflicts with the Delta Reform Act which requires less reliance on the Delta as a source of water. There are many better ways to deliver water to California such as desalination.</p> <p>In addition, the Delta farmers could not farm if the Tunnels were put in place because there will be less fresh water flowing through the Delta. As a result, more salt water from the Bay will intrude into the Delta which will kill crops.</p> <p>I have boated on the Delta for 17 years and it is one of the most popular and scenic places to boat in California. As a boater and fisherman, I would hate to see this wonderful place ruined so that thirsty crops can be grown in the Central Valley when this is not the right environment for them.</p>

Toby Swope	Sacramento, CA	2017-06-06	There are better ways to handle California's water demands. We live in a mediterranean climate. Borderline desert rain patterns, that's the natural rain pattern that's always been like that. Short winters, long summers. We need localized rain catchment systems like Sun Valley. Swales to slow and spread the water to ponds. Excavators are \$500 a day, a large farm pond can be dug for a few thousand dollars no problem. How does that cost compare to billions? Localization, not centralization. That's what got us in this mess in the first place. Trying to beat nature into submission instead of working with nature. Guess what nature is winning. Your tunnels don't make sense. There are better options!
Janet Bowman	Watsonville, CA	2017-06-06	This is a fiscally irresponsible plan. It will destroy the California Delta.

Shari Brunner	Santa Maria, CA	2017-06-06	This is a beautiful and unique eco system in California which we can't afford to lose. California is a state that protects and celebrates its natural beauty. Destroying the Delta with tunnels is completely the opposite of what we stand for. Please do not build the tunnels!
Kymberly Sparks	Oakley, CA	2017-06-06	We do not need the tunnels! Build dams and resivoirs instead!
Rylle Jones	Concord, CA	2017-06-06	I'm signing because it makes NO SENSE to disturb the fragile levees and ecosystem in the Delta to ship water to Southern California. MORE must be done to contain water in reservoirs or other systems.
Linda Bauer	Colfax, CA	2017-06-06	I am totally against the tunnels. Southern CA has enough of Northern CA water!!! The Delta is an eco-system unlike all others...the wildlife, the fishes, the fowl, everything are different than other places. The tunnels will destroy that. The farmers, and eventually you and I depend on the delta for the fruits and vegetables it provides us. This will ruin the farmland and make produce even more expensive because of having to grow and ship to the local markets.
Joyce Berube	Squaw Valley, CA	2017-06-06	This is a Total Waste of \$\$\$\$\$ Time and the end result would be another disastrous failure. Protect Nature -- NOT Developers !!

Maggi Baim	Galt, CA	2017-06-06	As a pear grower in the immediate area of the tunnels I am concerned about future water quality and availability. Debbie Phulps	Sacramento, CA	2017-06-06	Government claims to be aiming for "transparency", but this delta tunnel stuff is fraught with deception! The tunnels will only bring about further degradation of the Delta: its ecosystem, economic viability, and way of life. NO to the Delta Tunnels. NO to the Delta Plan amendments: a Trojan Horse that will destroy the Delta.
Susan von Sosten	Stockton, CA	2017-06-06	As a native Stocktonian, I am opposed to ANY project that destroys our Delta estuary.
Bob Panzer	Vacaville, CA	2017-06-06	Don't forget that Westlands Water District and Kern County Water Agency in the San Joaquin Valley are also demanding the tunnels.

Mike Rogers	San Jose, CA	2017-06-06	I am signing this petition because I care about the stream and river habitats that will be destroyed as a result of this plan. It's completely misguided.
Alyson Collier	Sacramento, CA	2017-06-06	The delta tunnels are the wrong solution. They will be an ecological disaster. There are better plans for the state and the environment. This is a solution for yesterday's problems, but does not address the present and future of our state. The enormous amount of funding is better spent on repairing and modernizing existing infrastructure and supporting programs for sustainable water usage.
Amber Blackmon	Pittsburg, CA	2017-06-06	I live near the delta and we need that water here not SOUTHERN CALIFORNIA
Michael Lamadrid	Tracy, CA	2017-06-06	There are better ways to manage our water. It is a public resource. Update archaic laws, conserve on all fronts, improve storage, replenish groundwater, work with the natural environment and weather patterns to optimize the system. Southern Ca and other arid regions on Ca need to landscape accordingly. Bigger ditches and tunnels around natural waterways are not the answer. Think better, not bigger. Thank you!

Heino Kemnitz	Sacramento, CA	2017-06-06	The entire premise upon which the so-called "WaterFix" is based is false, as twin conveyances such as those proposed are merely intended to move water from Northern California to farms in the desert of the Central Valley growing cash crops (almonds, pistachios, etc) for export, as well as to Southern California for the benefit of water agencies there selling water to residences and businesses. There appears to be no concern with anything other than to guarantee a steady supply of water. Well, as a lifetime resident of Northern California who has a pretty good awareness of the politics which created the original water project, and a knowledge of it's effects on the Delta and the state's ecosystem in general, I know a scam when I see one; and this just reeks of the politics of the moneyed interests attempting to ride roughshod over the interests of all those who reside, recreate, and appreciate what a precious resource the Delta is. The Delta needs MORE water flowing through it, not less, and unless this project is given the thumbs down it so obviously deserves, we stand to lose one of the greatest natural waterways in the country; and for what?--greed. Please show that you are, indeed, actual stewards of the Delta as you title yourselves, stop pandering to the money, and end this absurd plan before it goes any further.
Tim Stroshane	Albany, CA	2017-06-06	The Tunnels project is a terrible boondoggle--bad for fish, bad for Delta residents who fish the Delta for their food, and bad for Stockton - a minority majority community that is the largest city in the Delta region! No Tunnels, save the Delta -- the people AND the fish!

Daniel Witte	Castro Valley, CA	2017-06-07	<p>The Delta is crucial to California for many people including commercial salmon fishermen, Delta farmers and boaters. The sacramento river is the primary source of drinking water for the Bay Area. The proposal of using the San Joaquin River for drinking water is bad because the water is of poor quality. If the Delta tunnels are permitted, it will negatively impact the commercial salmon industry which generates \$250 billion per year because the largest salmon run in California passes through the Delta to reach their spawning grounds. If there is no or inadequate fresh water flow through the Delta, then the salmon cannot spawn. As a result, there would be no salmon in the ocean for the commercial salmon fishermen to catch which would result in them getting no money.</p> <p>The government and engineres have a duty to follow the principals of the Delta Reform Act which include restoring fisheries and decreasing reliance on the Delta as a source of water for California. Instead, the DSC needs to consider other options to ensure a supply water to California including desalination, repairing the fish screens on the existing pumps and repairing levies. The \$17 billion allocated for the tunnels, would be much better spent on the options mentioned above. The tunnels are much more unhealthier for the Delta than the existing pumps because they take the water out before it has a chance to flow through the Delta which causes the salt water from the Bay to intrude into the Delta. If we screened the current pumps and abandoned the tunnels as an option, then water could be safely exported from the Delta without large fish kills.</p> <p>In addition, the Delta tunnels would make the Delta unfarmable because of salt water intrusion. If the salt water intrudes farther up into the Delta, then the farmers cannot farm with it because salt water kills crops. The majority of California's vegetables come from the Delta.</p> <p>Lastly, there are over 4 million people living in the Delta community. If the Tunnels are put in place, their lives would be ruined.</p>

MARK LYNN	CARMICHAEL, CA	2017-06-07	I am deeply concerned about the health of our delta and watersheds which feed it. I have fished the American, Feather and Sacramento Rivers for 30 years and have logged over 40,000 fishing hours in that time. I have seen firsthand how increased flows out of our reservoirs/rivers and ultimately in to the canals which feed Kern County and Southern California... have devastated not just fisheries but all forms of wildlife. The twin tunnels, if built, would surely lead to the ultimate demise of fish and wildlife in the central valley.

Abraham Frailey	Redwood City, CA	2017-06-08	I grew up living in and around the delta, it is not our responsibility in the north to sustain the southern cities. Invest in desalination plants. Don't take away from our vast ecology in the north.
Karen Raicovich	Antioch, CA	2017-06-08	I believe that diverting fresh water from this area will allow with the tides, more salty brackish water to flow down into our community. This will allow for non native salt water species to come up stream and invade our eco system. Also will rust out boats and docks and reduce property values on the Delta. I think that there was never enough water conservation was in place for the part of our state where tunnels will divert our water for expensive crops. Why not spend money on building reservoirs and lakes to store more water first? It is complicated to share the water but crops have been and will continue to grow in areas where there was NEVER water or water storage. Not just food for CA but expensive nuts trees for foreign consumers who are willing to pay high prices for them.

mark scribner	Sacramento, CA	2017-06-08	unsound planning being pushed by unsound science and unsound politicians.
John Weed	Carmel, CA	2017-06-08	Two 25 foot wide tunnels diverting fresh water from the Delta would be devastating to this sensitive area. The beneficiaries would primarily be massive nut and tree fruit corporate farms in the Central Valley. These growing practices are irresponsible, and the growers have massively expanded their production of these water intensive crops in what amounts to a desert. The cost of this project would then be saddled on taxpayers who will see no benefit. I think it obscene to spend untold billions of dollars so almond producers will be able to increase their export sales to China.
STUART HELMINTOLLER	Los Osos, CA	2017-06-08	I am a fisherman, I spend lots of money pursuing my sport and the tunnels will be a disaster for the fish and the entire Delta ecosystem.

Raul Freitas	San Rafael, CA	2017-06-08	<p>This project is bad for the environment (the Delta and San Pablo and San Francisco Bays,) the fish populations of the American and Sacramento Rivers, and freshwater consumers in Northern California. Why has it been proposed, you ask? To increase the profits of wealthy corporate farmers in the Central Valley (you know, the ones who use 1.1 gallon of water to produce 1 almond!) and the water districts which stand to profit from this windfall (waterfall?) of water diverted away from Northern California consumers.</p> <p>Governor Jerry Brown was against this proposal during his first stint as California's Governor decades ago--he (or corporate interests) has changed his mind and now favors this decidedly environmentally unsound project. Sandra Strobel	Knightesen, CA	2017-06-08	We need the water, too, property values will plummet.
Kevin Miller	Folsom, CA	2017-06-08	NO. HELL NO. Don't mess with the flow.
David Mischel	San Francisco, CA	2017-06-08	The Tunnel plan is the exact wrong thing for a warming world and for the future California faces of having less water overall. The tunnels are 19th century thinking and it's the 21st century.

Laurel Rhea	Stockton, CA	2017-06-08	I don't want the Central Valley to lose it's water to SoCal. Or anyone. This is our home and we need our waterway protected. That is how we have become the 6th biggest economy in the USA.
James Dupree	Carmichael, CA	2017-06-08	The tunnels would be far to destructive to the fragile delta. There is nothing to show the users of the water will pay the cost of the project, it will end up being paid for by the tax payers. It is much more cost effective to implement water conservation and reclamation to provide the same amount of usable water. Thanks
Rachel Frame	Sacramento, CA	2017-06-08	I want to keep the Delta alive and I do not want the Governor to be able to destroy a very beautiful and important place.
Laura Fernandez	West Palm Beach, FL	2017-06-08	we need fish AND farms
Robert Buckley	Antioch, CA	2017-06-08	I do not want the tunnels, I think it will destroy the Delta Eco system.
Matt K Richardson	San Francisco, CA	2017-06-08	This is a massive fool hearty signature plan of the Browns that does not adequately address the needs of ALL Californians and the environment WE share.
Christy Reinold	Lodi, CA	2017-06-08	These tunnels must be stopped! There are better ways to address the water problems in California.
Wayne Sharp	Discovery Bay, CA	2017-06-08	The Delta Tunnels do not do a thing towards solving California's water problems yet they have tremendous environmental impact on the Delta and San Francisco Bay.
Lawrence Kenney	San Francisco, CA	2017-06-08	I'm a 5th generation Californian who'd like to see sensible action taken vis a vis the Delta.
glenn forslin	Antioch, CA	2017-06-08	The Delta is precious. Southern California is not to steal fresh water from us, ruining our environment.
Kevin Chavier	Isleton, CA	2017-06-08	I live and own a resort on the Sacramento River and the proposed tunnels will affect the flows and destroy the water quality and kill off what's left of the Delta smelt, Channock Salmon, Green sturgeon, and all native fish that live in the Delta and also put us out of Business because of salt water intrusion
Linda Soliven	Antioch, CA	2017-06-08	I am signing this because there is a plethora of evidence that putting the \$\$ and efforts into the twin tunnels project has scientifically, socially and economically facts that make this a deleterious move. Please stop this movement! There are solutions that have scientific and societal merits to avoid such action. Linda Soliven Antioch, CA 94531
Richard B. Engfer Jr	San Jose, CA	2017-06-08	Do not want the fragile Delta ecology adversely affected. Please do no harm!
jane perry	san francisco, CA	2017-06-08	The future of a world class eco-system is at stake.
Heather Tanaka	Stockton, CA	2017-06-08	The tunnels would destroy the Delta and everything in it, or that depends upon it.
Len Richardson	Danville, CA	2017-06-08	First of all the tunnels would basically ruin the Delta as we know it. Second, it would do nothing to improve our water needs while killing the Bay Delta Estuary while endangering threatened fish and other species. Finally, it would cost too much as has been proven by several studies. The Delta needs more water, not less!
Marian Pontes	Antioch, CA	2017-06-08	Jerry Brown is trying to push the tunnels through regardless how it affects the delta and communities who rely on the Delta

Donald Longton	Atwater, CA	2017-06-08	I think the tunnels will ruin the Delta. The west side is/was a desert and should remain a desert...
M. Jamison	Oxnard, CA	2017-06-08	Governor Brown should know better. I love him for caring about the environment, but this is one bonehead idea!
Amalia Becker	Discovery Bay, CA	2017-06-08	I do not agree with the construction of the Tunnels no matter who pays for them!
Curtis Hagen	Courtland, CA	2017-06-08	As A lifetime Delta resident who lives, recreates and works in our precious estuary I am shocked, angered and dismayed that the DSC is strongly considering only the CWF as the "preferred" fix of the Delta! This massive over engineering and manipulation of water is not the right direction of an attempt of modernizing our infrastructure and would only cause unreparable environmental havoc, damage and eventual loss of keystone species that helped bring us evolving humans this far.....
evanthia filios	Stockton, CA	2017-06-08	Stop the tunnels!!
sandy huber	Elk Grove, CA	2017-06-08	I am signing because I support a healthy delta, our farmers and recreation.
Barbara Cullen	Antioch, CA	2017-06-08	The tunnels will ruin our beautiful Delta Estuary and destroy fish.
Karen Jacques	Sacramento, CA	2017-06-08	While the tunnels will cost billions (and there are likely to be cost overruns), they won't create any more water, they won't improve the Delta ecologically or protect endangered species and construction itself will destroy much of the Delta. Tax payers are likely to end up paying for a significant part of the cost of the tunnels and there will be no money left to address such issues as more effective irrigation methods, protection of ground water, re-use of water or anything else that might lead to better use of the limited water we are and are likely to get.
chris baumann	discovery bay, CA	2017-06-08	Please save our Delta.... No Tunnels or Gates!
Ivania Portocarrero	San Francisco, CA	2017-06-08	This state simply CANNOT afford it. Don't do something that does not benefit the average Joe, please.
Carlyle Terry	Discovery Bay, CA	2017-06-08	I live on the Delta and want keep the Delta safe from degradation due to a lack of fresh water, the farms and the native fish and wildlife need to be protected from ruin. The tunnels are an expensive project that will only burden the taxpayers with cost overruns and excessive debt. This project will not add one drop of water the system and only destroy a fragile area. To send water to the Desert Southland. Yes people need to make a living and survive. How about alternative planing for a more permanent solution. Look at Israel and what they have done with Desalinization.
William Kelley	El Cerrito, CA	2017-06-09	The tunnels are a bad idea.
Tina Hand	Castro Valley, CA	2017-06-09	I am adamantly opposed to the tunnels, do NOT destroy our wonderful Delta and rivers!
Charles Hellingson	Long Beach, CA	2017-06-09	Water tunnels sounds like a bad idea.
Joan Buchanan	Alamo, CA	2017-06-09	Democracy works best in sunshine. Don't hide approvals and other important documents from the public. The Delta is far too important to our economy and our environment to have its future determined with back door and underhanded agreements. Governor, in 2010 you famously said "No new taxes without a vote of the people." I say, "Do build the tunnels and risk destroying the largest estuary on the cost of the Americas without being honest and transparent with the people! Give us an opportunity to voice our opinions. Let us vote on the project. It will cost taxpayers much more than the tax increase you supported in 2010."

Michael Faris	Linden, CA	2017-06-09	I do not support the destruction and modification of the delta water ways. We need to preserve nature and find alternative solutions to the problem at hand. Be more sustainable and not exploit for more economical gain for a few.
Rick Wolfe	San Mateo, CA	2017-06-09	The Delta is far too valuable to decimate.
Isabel Cabrera	Corvallis, OR	2017-06-09	I'm signing because water is life! Mni Wiconi. The land matters, the people matter, and unity matters!
Paul Karsh	Martinez, CA	2017-06-09	IMHO the actual agenda of the Tunnels project is to make more water available to real estate developers in southern California. I am opposed to taking more water away from the north to serve narrow big money special interests. I understand that it is more sound environmentally to repair and upgrade the levies of the northern California rivers.
Elizabeth Lasensky	San Carlos, CA	2017-06-09	Your job is to protect the Delta. Allowing for more exportation of water from the Delta without knowing or maintaining the necessary flow rate must be is not in the best interests of the Delta.
Bethi Carver Gibb	Bethel Island, CA	2017-06-09	This is wrong. Too expensive and corruption is pushing it through.
Steve Young	Discovery Bay, CA	2017-06-09	I'm signing because I have waterfront property in Discovery Bay in the tunnels or drastically affect the water Quality
Wendy Bettis	Campbell, CA	2017-06-09	We live and work on the Delta. This plan would ruin the waterways, kill of wildlife, and spend enormious dollars the state of California doesn't have. It is a horrible plan from a scientific, engineering, economic, and ecological standpoint. The only reason it seems to be continued is political payoff.
Linda Sepulveda	Discovery Bay, CA	2017-06-09	Dual conveyance (twin tunnels) will ruin the delta and its habitat. Why ruin one area to support another which has survived this long. If there isn't enough water for an almond farm, don't plant there!!! Any kindergartener could figure that out!
Constance Jackson	Santa Maria, CA	2017-06-09	Bad plan--will destroy the ecosystem & is backed by greedy developers. We need desalination plants every 200 miles on the coast, not the rape of the Delta !!!
Chris Martin	Alameda, CA	2017-06-09	I am against the tunnels because it is wrong, And Costly, to take water from a wetter region to irrigate a desert.
David Holloway	Novato, CA	2017-06-09	The Delta tunnels plan is terrible for the ecosystem and long-range health and viability of the Delta.
Kari Glenn	El Dorado Hills, CA	2017-06-09	The Delta needs to be protected! Even greater consequences are possible when nature is changed too drastically.
Robert Scott	Discovery Bay, CA	2017-06-09	Proposed tunnel plan will destroy the delta as we know it. All environmental impact studies have clearly shown that the tunnel project is a bad idea and requeres additional research

Debra Chan	Courtland, CA	2017-06-09	The delta is my home!
Joey Allan	Aromas, CA	2017-06-09	I want to help protect the delta. I'm a fisherman, a catch and release fisherman specifically bass but I enjoy all species. Its scary to think that the bass fishing in the delta could potentially disappear, to basically to keep a desert green and wet.

Joanne Fern	Llano, CA	2017-06-09	Last time I was up to the sacramento river the water levels were very low and I know that many farmers need water to farm and people need water to live....The money for these tunnels would be better spent on fixing the existing infrastructure for storage of water...and transportation of water....this seems like a foolish move on behalf of all who rely on the sacramento river. Besides the way our state government spends money on all the wrong projects like the bullet train to nowhere...Our money should be spent for fixing what we already have and not make more tunnels to draw water off the sacramento river which is a vital source of water for man and beasts.

Southern California should not use our Water to keep Golf Courses for wealthy green. Thank you

Philip Nagata	Valley Springs, CA	2017-06-09	We need new water coming in to California; not taking water from one area for the benefit of corporate farms at the expense of another area. Theodore Roosevelt said that we did not have to ship water out of the Delta unless it was surplus water. We had a surplus during his tenure but the population has tripled since his time and there is no surplus water today!!!! Bring new water to this state from Oregon and Washington states!!!

frank griskus	Stockton, CA	2017-06-10	make this petition easier to sign.
Mary Kay Benson	Chico, CA	2017-06-10	Stop the theft of our North Valley water by corporate farms! The Sacramento River is the primary source of drinking water for the Bay Area. During California's 5 year drought, corporate farms planted 100,000 acres of almond trees and then sold them to foreign nations making huge profits from our water.
Gwen Wright	Santa Rosa, CA	2017-06-10	This project is sickening. It is for special interests and does not serve THE PEOPLE OF NO. CA. As someone who grew up boating on the Delta, and having to take 5 minute showers and let the lawn die while the canal takes our water to So. Cal, this is another terrible rape of our natural resources. Tell those So. Cal interests to find some other way to water their absurdly placed farm interests.
Randall Adams	Brentwood, CA	2017-06-10	The tunnels do not provide more water for our state, they will only preserve water supplies for the south while sacrificing the delta and local needs. The aging levees are a legitimate issue but this does not fix them, we'd still face flooding if they fail.

Ann Marshall	Cupertino, CA	2017-06-11	No tunnels! Save the delta. Protect our farmlands
Ceasar Lewis	Roseville, CA	2017-06-11	I love the delta. The delta is such a great place for all the wild life. If this happens all the fresh water animals will be drivin out. Also the delta is a fishery that is known around the world that could be taken away because of one mans stupid idea. #savethedelta
Cole Maldonado	Roseville, CA	2017-06-11	I love this delta and it has many memories that mean a lot to me
Mariko Yamada	Sacramento, CA	2017-06-11	The "Twin Tunnels" are neither environmentally nor economically sound. You cannot save the Delta by destroying it.
Stephen Muser	Chico, CA	2017-06-11	Keep your greedy, short-sighted hands of Northern California's water.
Shannon Lewis	Clarksburg, CA	2017-06-11	These tunnels will rob the state of Ca financially and rob California of the beautiful delta we are so fortunate to have here.

Jacquie Rodriguez	Sacramento, CA	2017-06-11	Stop the tunnels
Ken Mah	Oakland, CA	2017-06-11	Theres a better plan that can be developed and compromised to lessen the impact on the fishery
Jeremy Menard	Joshua Tree, CA	2017-06-11	As holder of a Bachelor of Science in the field of Environmental Science, I must also step forward and correct those who are only interested in money. This project is not only detrimental to the local region ecosystem, it puts the complex aquifer system, currently being over drained by Nestles and other private foreign national corporations for bottled water profits and subsequent donations to Jerry Brown. This mismanagement of California's great limiting resource, Water, at the behest of the top wage earners and factory farms is an atrocity to the natural ecosystem and a ugly blemish on the environmental leadership and stewardship this state has been shown to represent in the past. I support clean sustainable management of water, for all species. Not just the Industrial Farms and the ultra rich estates of LA.
Elena Barrett	Beaumont, CA	2017-06-11	This project will devastate CA financially and will not guarantee any real change.

David Scatena	Stockton, CA	2017-06-12	I believe that the dual conveyances will facilitate the death of the Delta . It will not create one additional drop of water. It will cause the San Francisco Bay harm. It will rob water from senior water right holders and give it to junior water right holders. Not the answer to the water problems that face California.
Debbie Bell	Oakley, CA	2017-06-12	I don't want to see the Sacramento Delta affected by Southern Cal's water problem. We have a beautiful area for recreation and wildlife. Don't destroy it.

There is a long history of the Brown family, and water going to Southern California. I believe ever media source, has the responsibility to explain to every resident, how it started. How it turned very drastically, at a meeting in Monterey. Power went to Metropolitan Water, Kern County Water, and The Westlands Water District. That water belongs to the citizens. A decision that large, affecting so many issues, got'ta go to a vote. National Geographic, did a piece about issues. Well done. Appeared fair, and true to the issue. Read it. Mike Moreno	Salida, CA	2017-06-12	Can't sit back and watch this happen, we will lose our estuary for ever. This will impact outdoors enthusiasts as well as wildlife that use our delta.

Barbara Coapman	Alameda, CA	2017-06-12	The silence of the so-called environmentalists to the invasion and damage this project could cause the delta.
Jasmin Fonseca	Citrus Heights, CA	2017-06-12	To support our community
Thomas Dias	Castro Valley, CA	2017-06-12	We should not be messing around with our delicate delta ecosystem, we can only make it worse. Also I don't want my taxes going to profit huge water, and land companies.... it seems to me to be a big scam on taxpayers.
Robert Babo	Brentwood, CA	2017-06-12	I'm signing because these tunnels will KILL the California Delta
Karen Kern	Clovis, CA	2017-06-12	Delta needs to be protected
Dennis Self	Elk Grove, CA	2017-06-12	The river delta is more than just a water source for greedy developers and farmers. The delta is habitat for the migratory birds that use the Pacific Flyway. The birds don't get to vote so I'm giving them mine.
Marilyn Sperling	Pleasant Hill, CA	2017-06-12	I am opposed to the Delta Tunnels; draining the Delta will destroy the ecosystem. It's already very brackish in Pittsburg & Antioch. People drinking water from that area need to replace filtering systems every 2-3 months.
John Senter	Discovery Bay, CA	2017-06-12	The Delta Stewardship Council needs to consider other options than the dual conveyance system that will rob Northern California of the fresh water we need for the health of the Delta.
Richard Abbot	Walnut Creek, CA	2017-06-12	CSocal needs to recycle its water, it will anyway. That's the long-term Socal water solution. No need to first wreck the Delta.
Ken Crabtree	Sacramento, CA	2017-06-12	Don't let special interests from Southern California STEAL OUR WATER and DESTROY OUR HABITAT!
Ken Crabtree	Sacramento, CA	2017-06-12	Don't let special interests from Southern California STEAL OUR WATER and DESTROY OUR HABITAT!
Nicholas Ray	Antioch, CA	2017-06-12	The delta water tunnels go against the delta reform act and would be illegal and immoral as they will ruin the ecosystem of the delta. And ruin water Supplies for areas of Northern California that really need it.
Edward Arntzen	Pacifica, CA	2017-06-12	I oppose the entire CA WaterFix plan and the Delta Plan amendments, because I do want these tunnels built and the Delta drained. This is a bad plan!
Marsha Murphy	Pacifica, CA	2017-06-12	It's the right thing to do
Linda Vaio	San Rafael, CA	2017-06-12	I oppose the Delta tunnel project!
Wesley Rolley	Morgan Hill, CA	2017-06-12	Water. Goes when money flows. Every pol I have followed from Pombo to Brown treats the Delta like a slush fund. Keep looking like you are fixing the problem and the big boys will donate.
Kim Stewart	Lafayette, CA	2017-06-12	I am concerned that MWD is manipulating the public and trying to manipulate government agencies in supporting Gov Browns misguided notion that the Tunnels are a viable solution to Calif
Juan Sendis	Oakley, CA	2017-06-12	You guys are ruining the Delta
Russell Mattson	Discovery Bay, CA	2017-06-12	I own a home and I don't want the tunnels
James Turner	Courtland, CA	2017-06-12	The Delta Stewardship Council are not being good stewards in managing the delta resources and are ignoring the environment and are only serving special interests. The council is very biased and are not listening to the needs of the people that will be affected by the delta tunnel and the harm those tunnels will do.
Elizabeth Allen	Oakley, CA	2017-06-12	This is an ill conceived plan with the probability of making Nor Cal the ones needing water! Why not desalination units for So Cal?

Rickey Ehrlich	Oakley, CA	2017-06-12	We need to stop the delta from becoming a non tidal river
Sharon Strachan	Berkeley, CA	2017-06-12	Leave the Delta alone!
Robert Pope	Oakley, CA	2017-06-12	We have no reason to support, via our tax dollars, the Far East nor Middle East, including China. The only people, and no marine life, benefitting from these efforts are certain almond farmers and foreign interests. The Delta ecosystem and my are diminished by these efforts.
Susan Silva	Discovery Bay, CA	2017-06-12	California citizens we need to protect the Delta. The tunnels will not help the farmers or even Southern "very arid" California. Please protect our environment. California cannot afford the cost of the tunnels nor can California afford the destruction of it's rivers, tributaries, Delta and the San Francisco Bay Area. The Delta will suffer tremendous losses of the absolutely beautiful delta region running from Sacramento to the S F Bay Area.
terry spencer	French Gulch, CA	2017-06-12	I don't think destroying Californian's natural estuary is a good idea for the environment or the species that live there. Control human population and consumption instead
Karl Jensen	Mather, CA	2017-06-12	This will be the biggest fiasco since "The big dig". Imagine filling a bucket with a wet mixture of mud, sand and peatmoss. Now imagine trying to dig a hole to the bottom without the sides filling in? This is the geology of the delta. Now imagine digging two tunnels 150 feet down through this muck. What will happen is cost will spiral out of control and the project will fail but the contractors will still get paid. Follow the money!
Jonathan Hughes	Discovery Bay, CA	2017-06-13	I live on the delta
Barbara Flaherty	Stockton, CA	2017-06-13	Duplicity and mendacity to the citizens and taxpayers.
Pat Borison	Discovery Bay, CA	2017-06-13	The impact of the tunnels on the Delta and Bay area would be extreme and a rush to approve then without all science and financial facts considered is folly, at best

Daniel Schindler	Rio Vista, CA	2017-06-13	Im want to protect the Delta
Julia Pruden	Minot, ND	2017-06-13	I grew up in the delta and this is really disheartening. Please don't ruin the beautiful delta for financial gain; we can't get the delta back. Once it's gone, it's gone. Along with the livelihood of those there.

Doug Thorne	San Francisco, CA	2017-06-13	I love the Delta!
Donna Nowell	Dublin, CA	2017-06-13	I oppose the Delta Plan amendments because before any dual conveyance plan is passed we must determine "the flows necessary for recovering the Delta ecosystem and restoring fisheries" to "identify the remaining water available for export and other beneficial uses" required by the Delta Reform Act.
douglas adams	pittsburg, CA	2017-06-13	it will turn the area west of the Antioch in to a salt water bay and it never was
Diana Wood	Sacramento, CA	2017-06-13	The CA Fix is a water grab by water exporters who do not care what happens to the Delta. They just want more water period!!
James Roscoe	Antioch, CA	2017-06-13	This is another water grab by the southern portion of the stage. Storage is the only way there will be more water and right now nothing constructive is being done. We are fat with water but the next drought is just around the corner.
Lina Braunstein	Sacramento, CA	2017-06-13	I am signing because I am opposed to any plans that would enable the Delta Tunnels being approved without full public disclosure and input.
Sherry Stanley	Walnut Grove, CA	2017-06-13	The facts show the proposed tunnels will change the beautiful California Delta as we know it and ruin the way of life here.

Laverne Gondry	Lodi, CA	2017-06-13	These tunnels will not produce more water, and they will destroy the Delta.
Roxanne Dober	Bethel Island, CA	2017-06-13	Bad idea, bad plan, conservation and storage is a better alternative.
Tim Hall	Pioneer, CA	2017-06-13	I am signing this position because the proposed twin tunnels are inconsistent with logic and fail to adequately protect our delta environment while placing added financial hardship on a state already consumed with other costs.

Karen Cavallo	Rio Vista, CA	2017-06-14	By exporting more water to the South, the SF Bay Delta region will have an inflow of salt water from the Bay. This will cause farmers to deal with salt water for their crops which will not grow. The fish, the birds and wildlife will be impacted by this influx within the Delta. Please vote NO on the tunnels.

clark fratus	Livermore, CA	2017-06-14	The tunnels will dramatically slow the flow of fresh water out to the ocean which has held back the salt water from rushing in and causing an abundance of salinity to flow up stream for over 100 years now. The salmon, strippers, sturgeon, black bass, blue gill, birds, otters, muskrats, all wildlife and native plants won't be able to survive. Boat docks will sit on the bottom and in the mud without enough water to keep them afloat. A fowl order will fill the air due to the decaying plants. Property values will diminish. All this just to fill southern California swimming pools. Don't wait until it is too late to do something about saving our delta. The time is now to act and STOP Governor Brown's attempt's to try and make a name for himself by doing what his late father tried to do which was send the delta's precious water to the already rich in southern Ca. Remember, Brown's father was the one who cut corners when he approved the building of the Oroville dam which which we all know failed this last rainy season. Don't let southern Ca. take our water!
James May	Yuba City, CA	2017-06-14	I very much oppose these tunnels!!!
Jp Puebla	Lodi, CA	2017-06-14	Save our Delta from this ridiculous water stealing money grab!
Arthur Ralph	Discovery Bay, CA	2017-06-14	Our way of life will be decimated by the ensuing low quality of water should the tunnels be built. Leave the water where nature has provided it, and find other ways to manage the wasteful use in southern California.
Ralph Arthur	Discovery Bay, CA	2017-06-14	Taking water from northern California will ruin the water quality in our neighborhoods and adversely affect our property values, not to mention the devastating affect on our recreational activities on the water. Our economy will suffer, a multitude of water based businesses will be forced to shut down, and life as we know it will cease to exist. Retirement opportunities will be demolished, as those that have planned to live out their days in the delta area will be forced to move, with only a fraction of their investment in their homes as property values will plummet. Stop the tunnels!
Jeannette Malcolm	Antioch, CA	2017-06-14	If the Delta tunnels are built it will allow the salt water to flow to Sacramento. This will turn our fresh water Delta to become a waste land. It will kill all the fresh water fish and wildlife. It will destroy the a thousand miles of Delta crop growing land.
Charlie owens	Concord, CA	2017-06-14	Please don't build the tunnels.
Sean Sprague	Fair Oaks, CA	2017-06-14	No tunnels
Kathryn Mathewson	San Jose, CA	2017-06-15	Our state needs better and more thoughtful water policies than moving water from northern to southern California. Moving Delta water is not an ecologically healthy solution for the earth. Instead, why doesn't California become more water progressive like Texas and Arizona which have far less rainfall than southern California create incentives for businesses and home owners to harvest their rain water? In the Bay area the average home could collect 25,000 gallons of water from their roofs. Unlike in Austin we have very few professionals to help citizens make this happen. Also, California needs to stop their pesticide spraying programs which kill our soil biology and thus create more water needs and drought. Healthy soil biology can reduce water for plants by about 40 percent and sequester carbon. UC Berkeley and a number of soil scientists like Dr. Elaine Ingham are doing studies on this. California's water policies need to change and contributed to helping reduce global warming. Moving water to southern California is not a progressive idea for our state. Mike Guzzardo	Discovery Bay, CA	2017-06-15	I'm signing because there are better options out there and the Tunnels have a high likelihood of destroying The San Francisco Bay / Delta Estuary.
Judith Wolcott	Martinez, CA	2017-06-15	I am signing because the twin tunnels will harm the Delta.
Sandra Ketchpel	Discovery Bat, CA	2017-06-15	I oppose the Twin Tunnels, the California Water Fix, the Peripheral Canals - by any name, it's horrible for fresh water flows in the Delta. I vote, I boat, and I'm a resident of the Delta. This is not OK, and the people are watching.
Rachel Kennard	Sacramento, CA	2017-06-15	The delta is a place of special biological significance.
Mike Harbert	Discovery Bay, CA	2017-06-15	I feel these tunnels are not the answer to the water issue. This is big corporations and back room politicking for the worse. There are other solution that won't damage the delta eco-system.
Kathy Klusky	Rancho Cordova, CA	2017-06-15	This is our children's legacy. Not more water hogs. We need our water. It should not be sold to the highest bidder!

Natalie Stewart	Sacramento, CA	2017-06-15	It will kill the delta and it's occupants all to direct water to an unsustainable stop gap of a solution. LA needs to incorporate desert landscaping in all cases and save the water for the people and animals that need it. If you wanna play golf you're gonna have to get out of the desert!
Sal Busalacchi	San Francisco, CA	2017-06-15	The salmon is more improtant.
Diane Denby	Arlington, VT	2017-06-15	Not enough is known about the long term damage to nature
John Parman	Berkeley, CA	2017-06-15	The Delta needs to be restored, not destroyed.
Virginia Ciruli	Discovery Bay, CA	2017-06-15	The tunnels will ruin the water quality for us living on the Delta.
Beth Winfield	Davis, CA	2017-06-15	I believe more investigation into impact of these tunnels and funneling water away from the Delta is needed.
Rebecca spaan	Sonora, CA	2017-06-15	People who want to control the water don't care about Delta's and animals and people. I don't trust this one bit
Patricia Ziobro	Bethel Island, CA	2017-06-15	The tunnels are not the solution to our water problems. We need de-salinization.
Steve Swadley	Salinas, CA	2017-06-15	keep our delta healthy
Mary Shade	Fair Oaks, CA	2017-06-15	I'm concerned this project makes Northern California resolve a Southern California problem without persuing a solution that doesn't penalize Northern California residents. I've been to several So Cal spots like Palm Springs that use excessive amounts of water.
Ernie Luckhardt	Brentwood, CA	2017-06-15	I don't want the tunnel to destroy the California Delta.
Sylvia Rutter	Lodi, CA	2017-06-15	The cost to build,monitor and maintain the proposed tunnels is a burden that far exceeds any proposed benifits. The pressure for Northern California to support the water needs of Southern California is a burden especially in light of the population growth of the southern region. With finite water resources a moratorium on southern development needs to be implemented. The beginning of the water project, 1950s, the intent was surplus northern waters were to be sent south for agricultural uses. Present times, what water from the north is surplus? Changing the location where water is drawn south from only changes the direct location of the environmental impact on fish, northern agricultural. Stop the tunnels!
Adelmiro Acosta	Sacramento, CA	2017-06-15	I want to save our Delta
Tyler Urban	Arcata, CA	2017-06-15	I am against the tunnels plan (california water fix) due to the clear and obvious fact that it is entirely in opposition to the logic behind sustainable use of resources in a state where water is the single most valuable natural resource for all coexisting (or not) users. Every act of distraction and delay surrounding this project reeks of private interest cronyism, with the bottom line being billions of potential dollars made with the allowance that it be swept under the rug and secretly approved out of sight of the eyes of the public who will ultimately pay the biggest price, figuratively, environmentally, and literally. I will not let my voice be silenced in this matter which completely disregards the scientific evidence showing what happens negatively to a delta ecosystem once it is disrupted on such a massive scale. Search for the definition of stewardship, and please perform it properly, for all our sakes.
Christina Loyolacabral	Bethel Island, CA	2017-06-15	I love my Delta home just as it is.
Margaret Strader	Rodeo, CA	2017-06-15	Water is life but water tunneled to another area is murder.
Kimber Scott	Brentwood, CA	2017-06-15	Im signing because the tunnels will destroy a beautiful habitat. There are other, less invasive ways to achieve the desired outcome

Name	Location	Date	Comment
John Grinager	San Jose, CA	2017-06-15	I'm signing because history has proven that when you overdraw water from ANY Delta, that Delta dies (i.e. Colorado River Delta). Our Delta must LIVE!
Matthew Nelson	Carmichael, CA	2017-06-15	We need to leave our water way alone and worry about air pollution the salmon how about making California 100% renewable energy let's lead the world and set examples and show that it can be done let's save the world
TOM HUDSON	SAN JOSE, CA	2017-06-15	I don't support the tunnels. Not a sound project.
Ellen Koivisto	SF, CA	2017-06-15	Taking water out of the Delta will NOT protect either the Delta or the fish populations that depend on the Delta. Or, in fact, the forests upstream that depend on the fish populations. Or the people and other animals that depend on the forests. Or the weather that is created by the forests, giving us precipitation in an area that wouldn't provide nearly as much minus the trees. It's all connected, much like bad political decisions and massive amounts of money and favors are connected.
Crista Haynes	Rio Vista, CA	2017-06-15	The impact of these tunnels will be far reaching. I spend many weekends in the Delta in my kayak. Our Fish populations are already struggling. Our Smelt and Salmon will be pushed to the edge of extension. I ask that this damaging miss guided Tunnels idea cease at once.
Tracey Ziomek	Oakley, CA	2017-06-15	I live on the Delta and want to save it and the fish for generations to come. Don't be short sighted.
William Chinnock III	Stockton, CA	2017-06-15	I live in the Delta, and I don't think these tunnels have any benefit for the actual San Joaquin-Sacramento Delta. They just benefit the greedy water users, who have hired lobbyist to pitch their deal. But, if you lived and worked in the Delta as I have for 20 years, you can testify that the Delta needs restoration. The Delta doesn't need any new ideas to ship water away. It needs to be restored so that the natural resources will become sustainable. The Delta Tunnel plan by Jerry Brown is not acceptable to me, and I live here.
Kathy Mazzaferro	Murphys, CA	2017-06-15	Tunnels are not healthy for our Delta waterways. Southern California needs to do a MUCH better job of conserving water.
Howard Itow	Rocklin, CA	2017-06-15	I am signing because I oppose dual conveyance as the preferred method of moving water through the Delta. I oppose moving water through the Delta entirely especially when it is done to irrigate an elite group of farms that continue to seek favorable legislation at the expense of our natural resources and ecosystem.
Brian Astley	Sacramento, CA	2017-06-15	The delta tunnel project is a disastrous idea. That will destroy the wetlands we depend on, just so the narssisitic people of southern California can profit from water text with the assistance of the Democrat party.
Carrie Markel	Sacramento, CA	2017-06-15	I care deeply about this important ecological treasure in California! The Delta riparian habitat is unique to this state and important to preserve!
Ty Allen	Rescue, CA	2017-06-15	The People before big money. Science has proved this is a mistake for many reasons.
Gloria Smith	Sacramento, CA	2017-06-15	The tunnels are bad for the delta, destroying habitat vital for wildlife and a healthy environment.
jacronae luperine	Antioch, CA	2017-06-15	I live on the Delta and we need our water
John Romero	Isleton, CA	2017-06-15	I strongly oppose any actions that lead up to the advancement of the twin tunnels project. The Delta Reform Act must not be ignored and other options need to be implemented to provide water to the areas that demand more and more from the Delta. Salinity levels are too high as it is in areas that only a few years ago were hardly considered brackish. You can't save an estuary by draining it at the rate those tunnels would use.

ELMER CEDER	Fairfield, CA	2017-06-15	I LOVE THE DELTA, AND BELIEVE THE TUNNELS WILL HAVE A SEVERE NEGATIVE IMPACT ON THE ECOLOGY
Susan Sullivan	Oakley, CA	2017-06-15	Please don't proceed with the tunnels it will hurt the calif delta where I live & play
Terry Brasier	Alamo, CA	2017-06-15	I tired of our natural resources in northern calif. being sent to so calif so they can wash their sidewalks and gutters. Been there have seen it happen many times. Their lawns are green ours are dry and dead
Phil Nanni	West Sacramento, CA	2017-06-15	I oppose the continued assault on the Delta by water users in Southern California that grow crops that require too much of this resource.
Katrina Lomax	Brentwood, CA	2017-06-15	I do not want them to build the tunnels. It will destroy the ecology and my right to enjoy the delta waters. Find a storage solution instead.
Cindy Detzel	San Leandro, CA	2017-06-15	It will hurt the ecosystems do Northern California delta
Ann Nichols	Sacramento, AL	2017-06-15	Water stewardship at the point of use is the answer to water issues in Ca, not destroying valuable farmlands and fishing communities upstream. Stop developing and building where there are water shortages and promote conservation and grey water re-use systems in every new community and commercial site.
David Langendorff	Livermore, CA	2017-06-15	The delta is my favorite place. I have my boat out at least 45 days a year and would hate to see the devastating affects these tunnels will have on the ecosystem.
Joe Slusark	Paradise, CA	2017-06-15	I'm signing this petition because I believe the twin tunnels project will be detrimental to environment of northern California.
James Vang	Stockton, CA	2017-06-15	Fuck the Twin Tunnels
Sharon Berry	Galt, CA	2017-06-15	Big business big money should have no right to destroy the farmers and the Delta!!
Richard Walker	stockton, CA	2017-06-15	The delta is essential to the California ecosystem without its proper protection the only part of our water and food chain link would be lost and would sent the economy and everything related to it into a death spiral.
Sally Hansen	Eureka, CA	2017-06-15	Keep the Delta as it is! No tunnels.
Harry Bishop	Stockton, CA	2017-06-15	We dont need a tunnel
Joseph Grulich	Petaluma, CA	2017-06-15	The Delta is too important to lose over corporate interests.
Shelly Morris	Brentwood, CA	2017-06-15	I cherish the wetlands of the delta. This ecosystem is essential to a healthy CA. Neither Californians have sacrificed while people in southern CA continue to develop irresponsibly. The delta needs our voices.
Donn Longstreet	Santa Barbara, CA	2017-06-15	We need to end destructive policies...
B. Cabranes	Galt, CA	2017-06-15	No to Tunnels!
Robert Tifft	Redwood City, CA	2017-06-15	I am a delta boater and grew up boating in the delta.
Dayna Tinnin	Manteca, CA	2017-06-15	I am signing because the Delta will be greatly environmentally impacted. Their are many species that make the Delta their home. Also, draining the Delta will most certainly affect many migratory trails. Please people don't let them take this water out of this valley. If you want an example of poor water management, by So CAL, please visit the Hoover Dam.
Erika Herrera	Hawthorne, CA	2017-06-15	Protecting the environment should be every decent human beings main priority.
Oliver Boido	Sacramento, CA	2017-06-15	This should be obvious to anyone with common sense .

Arne Simonsen	Antioch, CA	2017-06-15	As a former Chair of the Delta Protection Commission and having represented ABAG on the Governor's Blue Ribbon Delta Vision Task Force's Stakeholders Coordination Group, I can attest that if the proposed "twin tunnels" take water from the upper Sacramento River that it will turn the Delta into a saltwater marsh, depriving the many Pre-1914 Water Right holders of fresh water for their residents.
Jacob Ouzts	Sacramento, CA	2017-06-15	Tunnels are wrong decisions
Anthony Dal Porto	Petaluma, CA	2017-06-15	NO TUNNEL.

Tanya Harbert	Discovery Bay, CA	2017-06-15	I am a homeowner in Discovery Bay and want the Delta and all that it encompasses to remain a beautiful natural preserve.
Brett Corrie	Brentwood, CA	2017-06-15	Robbing Peter to pay Paul is not the solution here. Better storage, recycling and reclamation is!
Wayne Chubb	Orangevale, CA	2017-06-15	I was suspicious of the true motives of this project from the beginning, and the maneuvering that I have seen since hasn't changed that. I believe this has only water companies' interests at heart, and is going to sacrifice the Delta and its fisheries in the interest of South Valley and SoCal interests and Gov. Brown's legacy and acolytes.
Richard Langendorff	Brentwood, CA	2017-06-15	We do not need them.
Gwendolyn Carver	Riverside, CA	2017-06-15	I do think the tunnels will destroy the Delta.
Kathy Nealon	Pittsburg, CA	2017-06-15	I don't want tunnels ruining the Delta. And I want them to stop dumping fresh water into the ocean!
Jane Coleman	Chico, CA	2017-06-15	This is a bad way to deal with our water and distribution of water problem. It is too detrimental to the environment and does not have a well thought out fair plan.
Glenn Williams	Stockton, CA	2017-06-15	I oppose the Tunnels.
Deborah Leeds	Clarksburg, CA	2017-06-15	No tunnels please
Linda Maggy	Hayward, CA	2017-06-15	The tunnels are not in the best interest of the Delta. I want the Delta preserved for future generations. Sending water to greedy Southern California for their pools, golf courses and lawns have destroyed many systems. They will continue to try and get more water from other areas.
Betty Lou Jeanne Ahlberg	Danville, CA	2017-06-15	Gov. Brown is ruining our state!

Anastassios Kandris	Woodbridge, CA	2017-06-15	Because we need to protect the environment, the fish population and protect the Delta for future generations.
Michelle Mitchell	Paso Robles, CA	2017-06-15	The Delta tunnels are a bad idea. The environmental and social risks are too high. It is unacceptable to potentially ruin an ecosystem and a thriving recreational area to export yet more water south to valley farms and southern California residents.
Sally Hale	Riverbank, CA	2017-06-15	We are hyperbolically draining the Delta dry.
Shannon Price	West Sacramento, CA	2017-06-15	The Delta should be restored, not further compromised. Think long term: salmon

Nancy Smith	Stockton, CA	2017-06-15	Please check to see if I've signed before! I don't want to screw up the count for signing more than once, but I also want to make sure my name is counted. The tunnels have to be stopped!!!!
Glenn Castro	Riverbank, CA	2017-06-15	Total corruption
john ormsby	Sacramento, CA	2017-06-15	I am opposed to the tunnel project because it would be the same as a tub drain on steroids. We want to Save the Delta from massive harm. Those in favor of these tunnels Want to Harm and Destroy OUR Delta waters and wildlife. Gov. Brown has no right to destroy our nature. He wanted this for many decades. It is the old peripheral canal project renamed. Wrong, Wrong, Wrong!!!
Bob Abbott	Carmel-by-the-Sea, CA	2017-06-15	So Cal does'nt need the water, they'll just give it away to Nestle!
Jeannie Pruszinske	Walnut Creek, CA	2017-06-15	I totally disagree with Governor Jerry Brown with Delta tunnels and taking our water from the Delta!!!!
Tina Heringer	San Francisco, CA	2017-06-15	We can not drain the Delta and its delicate eco-system for the likes of billionaire corporate "farmers" such as the Resnicks. There are better, long term answers towards our water crisis and dealing with the drought. Don't throw the baby out with the bathwater.
Dana Rivinius	Pleasanton, CA	2017-06-15	California's agricultural community is being destroyed with all the houses and diverting our water to So Cal. It needs to stop--at what point will we not have enough land to grow food for all the immigrants?
Nancy Sappington	Rio Vista, CA	2017-06-15	Because this will put my home in a flood zone.
Don Coelho	Carmichael, CA	2017-06-15	I really feel to estuary will suffer. Saying we do not know what we are talking about, by you, our Governor is not appreciated. Coming from a farming family from both the Delta and south San Jouquin county, I have a life long first hand knowledge. You have not convinced me that these tunnels will help this area.
Allen Crumm	Auburn, CA	2017-06-15	It is the peripheral canal all over again! It will destroy the delta!
Cameron Whitman	Discovery Bay, CA	2017-06-15	We do not want your damn tunnels! Stop being greedy and listen to the people!
Matt Ferro	Sacramento, CA	2017-06-15	Jerry Brown is an a**
Wendy Heaton	Clarksburg, CA	2017-06-15	It's maddening that this project is being sold as "saving" the Delta. Diverting the Delta's freshwater flows will kill the ecosystem, destroy Delta water quality, salt up prime farmland and more. To our elected and appointed officials: stand up and do the right thing. Scrap this project now and put the state's financial resources towards sustainable, regional water solutions.
Mark Altgelt	Vallejo, CA	2017-06-15	Diverting fresh water under the Delta would destroy the Delta ecosystem by reducing fresh water flow and rejiggering the natural Delta system.
Harrie Dennison	Santa Rosa, CA	2017-06-15	Destroying the Delta is not an option. There are far better uses for the money spent than giving Nor Cal water to the wastefull SoCal population. Find a realistic solution that doesn't destroy our environments!

Also, a great deal of farmland will become fallow due to the lack of water supplies. This is nothing more than a southern California water grab by the Resnick corp.
Debra Rodgers	Stockton, CA	2017-06-16	The tunnels would take away my home and land that has been in my husbands family for generations. The cost is way to much it would be more efficient for Southern California to conserve and research other resources than these tunnels.

Martha Totaro	Rocklin, CA	2017-06-16	I am signing this petition because I believe the WaterFix project will create many more problems than it solves, adding massive costs in the future for an already absurdly expensive plan. A huge part of that cost will be the inevitable damages to the Bay and Delta ecosystem and economy. Surely, there must be smarter ways to manage our CA water needs statewide.

Angela martinez	Discovery Bay, CA	2017-06-16	<p>The Delta Tunnel will WILL the Delta and negatively impact the Delta Coomutues.</p> <p>I live and work in Discovery Bay, A small family & boating community on the Delta near Brentwood. If the Tunnels go through it will slow and or stop water flow causing more bad green Algee, muddier water, poor water quality. That will cause 7000 to drop in value causing the City & Stare to loose money. Not to mention the loss of life & recreation.</p> <p>The Tunnels will also hav a negative impact on business and restraunts. The are thousands of homes and business the will suffer if the Tunnels go through. As a state we should be focusing on conservation! Water meters, drought tolerance fixtures, landscaping, etc.</p> <p>Stop the Tunnels!!!!!!</p>
Andrew Chatoian	Elk Grove, CA	2017-06-16	The plan ignores the devistating impact to the ecosystem that supports fish and wildlife. In addition agribusiness throughout the Sacramento , San Joaquin Delta will be ruined due to salt water intrusion.
Robert Remillard	Livermore, CA	2017-06-16	I support improving the Delta and its fishery habitat
Julie Shaw	Oakley, CA	2017-06-16	I live in CA and I'm tired of seeing it go to crap!
Gary Graves	Grass Valley, CA	2017-06-16	The tunnels are not a viable solution either environmentally or financially and will set up a scenario for further diversion of water form Northern Calif. to support corporate farming up desert lands that were not viable to begin with.
Ariana Villafuerte	Duarte, CA	2017-06-16	You aren't fixing the problem by building these tunnels you are merely trying to treat the symptoms, creating more serious issues along the way
Loraine Webb	Nevada City, CA	2017-06-16	The delta is California's greatest natural resource!
Mary Conway	Monterey, CA	2017-06-16	The twin tunnels will make even less sustainable the San Joaquin Delta. The Delta needs the fresh water to flush into the SF Bay so the salmon will repopulate out rivers and ocean. Leave our nor-Cal water in nor-Cal and not enrichen the coffers of industrial growers on the terrible land on the badlands of the lower and western San Joaquin Valley.
Sandra McMullan	Danville, CA	2017-06-16	The tunnels are a very BAD idea find a better solution through conservation!!!
Carolyn Ross	Lodi, CA	2017-06-16	The twin tunnels project will destroy the Delta. It's a greedy water grab that cares little for the Delta's ecosystem or it's inhabitants.

Ken Draoer	Manteca, CA	2017-06-16	Democrats are stealing the life blood of the central valley to save the Hollywood elite and to suck up to their environmental agendas
Gwen Myers	Roseville, CA	2017-06-16	The tunnels will destroy the Delta and surrounding areas.
Art Vallejo	Manteca, CA	2017-06-16	Twin peripheral canals at a potential cost of \$50 billion are not the answer. Southern CA needs to build at least two major reservoirs to supply fresh water to the exploding population we have in this state.
David Selvy	Colfax, CA	2017-06-16	This watergrab by Governor Brown is theft of OUR WATER LEGACY to be sent to Moholland Metropolitan water district and his Real Estate interests as a payback for their campaign donations to his treasure chest. If this succeeds we will have a delta that will look like Owens Valley!!

Michael Ray	Stockton, CA	2017-06-16	SoCal has to start seriously conserving and explore other ways to get more water for themselves, stealing from our beautiful Delta is morally reprehensible. One word: desalinization.
Robert Verkerk	Fresno, CA	2017-06-16	Don't eat or buy products from the Wonderful Company. Owner is a delta water grabber and reseller. Boycott Pom Wonderful, almonds and pistachios grown in the Westlands Water District. Boycott.
Erica Tate	Brentwood, CA	2017-06-16	Southern California needs to recycle and conserve the water they have and not take ours!
Ron Cofer	Rohnert Park, CA	2017-06-16	I want to see our waterways preserved.
glenn forslin	Antioch, CA	2017-06-16	If you like salty brackish water in our delta, that is what will happen if this monster is allowed. Fresh water is plentiful again today but if a dual drain with two 45 foot wide giant intake pipes is allowed, our fresh water will get sucked right into Byron on its way to SoCal. Its like our aggie is somehow bad and theirs is good so they need our water. It is really 27 Million versus 13 Million, stateing residence population as the determining factor, or is it something else political and evil? No matter, the tunnels will alter life here, and the delta just came back after years of problems due, in part, to improved water quality. Not right....

If we cannot find an alternative source of water for irrigating much of the south San Joaquin Valley, then we should not approve additional planting until we do. This is not a "farmers v. fish" issue; this is the health of our Delta, the source of much of the Bay Area's drinking water, and the fishing industry off our North Coast.

The delta tunnels will ruin a place i have called home for my entire life and ruin any chance of letting my newborn son experience the same lifestyle I was so blessed to have. Saltwater intrusion is a real problem for the delta, and it will continue to get worse with the tunnels. This will kill allnof the local species of fish, destroy farmland, and ruin the local economies that depend on the delta, tourism, and fresh water.

Eileen Mathias	Sebastopol, CA	2017-06-19	This will not solve our water problems, it will only aggravate them. Surely we can come up with better solution that is good for people and the environment. Our fish are important too, as an essential human food source. We need to balance all needs, and the Delta tunnels don't do it. We need stronger conservation measures, and ideas from places such as Israel, ideas that have been proven to work. Don't rush into a plan for which there are much better and more effective solutions, especially one as expensive as this!! Save our money for better ideas.

Brendon Goldberg	Valley Springs, CA	2017-06-19	Jerry Brown needs to use his brain and build resivoirs down south instead of stealing our water.
Barrett Jensen	Elk Grove, CA	2017-06-19	Destroying the delta is not in the best interest of anyone but the few wealthy parties that would benefit financially at the expense of one of California's greatest natural assets. The environmental damage alone is reason enough to oppose this and I am surprised that our governor would support such a bill
Gordon Holt	Lincoln, CA	2017-06-19	I'm signing because I believe that the tunnels will cause great harm to the Delta and the Sacramento River by diverting more water instead of So Cal Water Agencies looking towards alternatives such as desalination and increased storage capacity in the South.
Gail Zavala	Rio Vista, CA	2017-06-19	Our farmers and residents lives will be ruined by the salt water that will flow into the Delta if the twin tunnels are built. Why should these people be less important important than the big money holders that are promoting the tunnels?
morgan swisher	madera, CA	2017-06-19	I believe the tunnels are wrong for California, only support big ag that grows almonds and pistachios and exports them ove seas, not food.
Michael McKnight	Lodi, CA	2017-06-19	This will absolutely destroy the Detla
Anthony Silva. Jr	Union City, CA	2017-06-19	I'm signing this because scary Jerry Brown is trying another behind our backs tactic to push through this project with out voter disapproval.. he knows it would not get voter approval just like the 43 mile Periphail canal went down in defeat.. and just like the .20 per gallon on diesel and .12 per gallion gas taxes and new higher DMV registrations fees were back footed without voter approval
Dave Della	Sparks, NV	2017-06-19	I travel from NV to the Delta 6-10 times a year for bass tournaments. Each trip I spend \$500-\$1000 on lodging, gas, food, slip rental etc. If you lose this fishery the locals lose the revenue. I am one of tens to hundreds of thousands who do this regularly. Do the math.
Dr. Ronald Forbes	Lodi, CA	2017-06-19	The Twin Tunnels concept is for Gov. Brown's ego. It is a total disaster for the Delta's environment, economy, recreation, and force our salmon and fisheries to extinction. Lets stop making those profit from continuing water grabs more wealthy at pubic expense
Susie Smith	San Francisco, CA	2017-06-19	No tunnels. This is bureaucratic waste.

Jeff Conant	Wallace, CA	2017-06-19	We need to protect the Delta!
michael kontes	Sacramento, CA	2017-06-19	I am a fisherman and the delta is an incredible estuary and fishery. Keep it as is... don't mess with it.
Gray Brechin	Berkeley, CA	2017-06-19	The tunnels will be the coup de grace to the Bay/Delta ecosystem which is already teetering on the brink largely because of Pat Brown's State Water Project.
Frank R. Lopez frlopez@sbcglobal.net	Vacaville, CA	2017-06-19	I want to save the Delta from Big "Farma", farming interests that have nothing but money and greed as their intentions, with total disregard for the Delta and S.F. Bay ecosystem.
richard losh	Hilo, HI	2017-06-19	Stop the destruction and the pillaging of our northern Californian waterways for the continued benefit from the irresponsible planning and growth of our southern states infrastructure...
Gary Walker	San Carlos, CA	2017-06-19	The delta needs the water.
Gunnar Woodyard	Pacifica, CA	2017-06-19	I'm convinced the tunnels would be an environmental disaster
Brien Brennan	Red Bluff, CA	2017-06-19	I'd rather live in a world with more intact species and biotic communities than a world with more humans and irrigated farmland.
David Jennings	Riverbank, CA	2017-06-19	This is not good for California.
James Long	Brentwood, CA	2017-06-19	I've lived on the California Delta for 19 years. I believe the twin tunnels will kill this beautiful resource.
Deborah Dodd	Sacramento, CA	2017-06-19	Please DO NOT build the tunnels. Don't jeopardize the Bay-Delta ecosystem. Overpopulation and unsustainable farming (and other industrial) practices need to be checked.. Stop with the "it's the way we've always done it" mentality.
Gail Bedinger	Torrance, CA	2017-06-19	Protect our fish and environment. Stop the tunnels.
Susan Proescher	Discovery Bay, CA	2017-06-19	The plan is an environmental and fiscal disaster in the making. NO TUNNELS! SAVE THE DELTA!
Iris Giebus	Walnut Creek, CA	2017-06-19	Stop the Shannugans! Your actions are being watched by your constituents!
Victoria Smith	Lodi, CA	2017-06-19	I'm signing because our lives depend on the Delta thriving, not dying.
Richard Antonucci	Waterford, CA	2017-06-19	Because this needs to stop!!
Derek Smith	Madera, CA	2017-06-19	As always, there seems to be not clear straight forward plan. To many grey areas. Does not benefit all.
chrissy hsmberger	Auburn, CA	2017-06-19	The proposed Delta Tunnels are a horrible idea. There has got to be a better way.
Sheri Bogosian	Discovery Bay, CA	2017-06-19	Still short signatures, please sign to stop the Delta Tunnels!!
Martin DeHaven	Fresno, CA	2017-06-19	I believe we need to protect the Delta and the Eco-System
Carol Fields	Berkeley, CA	2017-06-19	In view of the upgraded science about the Delta, there must be a new approach to the co-equal goals ---the tunnels look too expensive and uncertain, and not skillful and long-term. Water and ecosystem conservation are key.
Ralph McClane	Bethel Island, CA	2017-06-19	I care deeply about the Delta and all that it has.

Vergil Chaddock	Oakley, CA	2017-06-20	The tunnels are not needed.
Randall Sharenbrock	Stockton, CA	2017-06-20	The tunnel plan is not in the best interest of the California citizens. Special interests yes, citizens no, The tunnels would destroy our Delta and is a financial disaster,
Deborah Zacharatos	Concord, CA	2017-06-20	We have owned property on the Delta and use the Delta all the time for recreational and well water. This needs to not happen
Paul Goulet	Manteca, CA	2017-06-20	I want the delta to remain as is...as GOD intended....
Manuel Garcia	Pasadena, CA	2017-06-20	We need real solutions, not tunnels.
marlena markel	forest ranch, CA	2017-06-20	Is this ever going to stop?
Eduardo Martinez	Richmond, CA	2017-06-20	The water situation needs to be reevaluated before we spent any funds on a project that. Oils destroy the Delta.
Diana Gay	Oakley, CA	2017-06-20	NO TUNNELS!! NO TO BURIED PLANS IN THE AMENDMENTS!! THEY WERE HIDDEN BEFORE, NOT AGAIN!!!
Barbara Scott	Stockton, CA	2017-06-20	Saving the delta is a life and death action. Without a strong Delta water system our environment will suffer irreparable damage. The encroachment of salt water in to our large and diverse agricultural area will negatively impact crops, marine life and quality of life for residents. This is not a viable option!
Wade Strelic	Alpine, CA	2017-06-20	I want to save the delta

William Lawrence	Antioch, CA	2017-06-20	The preservation of the Sacramento River is essential!
JUDY BLOOM	ELK GROVE, CA	2017-06-20	I believe in preserving the Delta for future generations. The tunnels are insane. Who is really behind this?
Dan McDaniel	Stockton, CA	2017-06-20	I want to keep Northern California natural, beautiful, and livable. There is no good reason to build cities or fan in the desert. Tell Jerry Brown to stop stealing our water!
Earl Cryer	San Diego, CA	2017-06-20	To protect wetland habits, wildlife and our water!
Tetsuo Inouye	Sebastopol, CA	2017-06-20	It is important to NOT proceed with this plan to protect our environment and keeping fisheries alive with hope of improvement. This affects every part of northern California especially our economy and if it goes through despite the studies that say it is too destructive, it will set a precedent for other projects on other waterways in our state. There are other things that need to be done to save and store water locally.
Patricia McBroom	Pleasant Hill, CA	2017-06-20	The tunnels are a terrible idea; they deliver no new water and will ruin the delta.

Richard Witham	Woodland, CA	2017-06-20	What a waste of time and money!
Jillene Schroeder	Discovery Bay, CA	2017-06-20	Lived in Discovery Bay since 1978 and I agree with our town members we do not want the tunnels period!
Chris Perez	Lincoln, CA	2017-06-20	I grew up fishing on the California Delta and there is nothing more that I want to do then share this wonderful body of water with the future generations.
William L Martin	San Francisco, CA	2017-06-20	I'm signing because the Twin Tunnels is an expensive boondoggle which will only help big Ag steal more water.
m s brown	Alameda, CA	2017-06-20	Rerouting water through the proposed twin tunnels is contrary to how the water flows NATURALLY in Northern California and will eventually result in devastating ecological consequences! environme
Dave Stirling	Walnut Grove, CA	2017-06-20	My family and I live in Walnut Grove.
Ray Warthen	Bethel Island, CA	2017-06-20	The tunnels will ruin the Delta. The Delta is my home and a valuable resource for this state and its residents and visitors.
Lemaj Plaza	Stockton, CA	2017-06-20	L. Plaza
Connie Skoog	Oakley, CA	2017-06-20	I have been working against these tunnels for years. It seems so clear! Please look clearly at what they would NOT DO to help the CA water mess.
David Smith	Lodi, CA	2017-06-20	I see our delta deteriorating, farms failing, wells going dry and the intrusion of salt water moving farther up river. It's killing the Central Valley
Eowyn McMannis	Winters, CA	2017-06-20	I grew up in the Delta
Mike Palomino	Discovery Bay, CA	2017-06-20	I believe the tunnels are a bad idea, they do not provide more water, they would do harm to the Delta ecosystem
kelly husted	Stockton, CA	2017-06-20	Governor Moonbeam needs to stop selling our water to the highest bidder...We need this water for our water sheds and farming and keeping our wildlife thriving... Stop giving in to politicians who care nothing about this land but their pockets being filled. Stop it!!!
Dean Hill	Sacramento, CA	2017-06-20	Water conservation is a delicate subject and obviously needs in this situation more time is required to fid a better solution.
Karen Dozier	Rio Vista, CA	2017-06-20	I am vehemently opposed to the tunnels. They will ruin the Delta's fragile ecosystem. No tunnels!
Robert Beecham	Rialto, CA	2017-06-20	I want a sound logical smart water project

Dante Nomellini, Jr.	Stockton, CA	2017-06-20	It is difficult to conceive of a physical facility that could be constructed with as much capability and potential to permanently destroy the Delta than the Tunnels. And then to put the operation of those Tunnels into the hands of people who could not care less about the Delta is just madness. The members of the Delta Stewardship Council have a duty to protect the Delta. Those members need to do the right thing and put an end to the Tunnels once and for all and not recklessly promote them as they are currently doing. There are numerous solutions that the entire state can get behind, including the Delta as well as those that currently wish to destroy the Delta, such as conservation, storm water recapturing, recycling, etc., that will yield orders of magnitude more water than the Tunnels could ever yield and not result in the destruction of the very special and unique and irreplaceable Delta. Members on the Delta Stewardship Council please change your focus and help direct the entire state towards those solutions. Please fulfill your duties to protect and preserve the Delta by steering the state away from the mother of all threats to the Delta. It is not too late to change course and do what you know is the right thing.
Randall Parvin	Elk Grove, CA	2017-06-20	I don't want the tunnels on my California delta period !!
Patty Juanes	Sunnyvale, CA	2017-06-20	Patty Juanes
Susan Schneider	Vallejo, CA	2017-06-20	The Delta will be ruin d if this passes. Keep our natural waterways in tact. Southern CA keeps insisting they have a right to Northern CA and Sierra water to keep their yards green. They don't have that right. Desalination plants and water conservation measures are what they need, not Sacramento Delta water. That water belongs in the Delta.

Daniel Witte	Castro Valley, CA	2017-06-20	<p>The California Delta is essential for California in many ways. They include fishing, recreation, farming, and drinking water.</p> <p>The largest salmon run in California passes through the Delta to reach there spawning grounds. If the tunnels are put in place, there would be no fresh water flowing through the Delta. When this happens, the commercial salmon industry which generates \$250 billion per year suffers. If there are no salmon migrating to the ocean, the commercial fishermen have no fish to catch. This results in no jobs wich translates to no money for the commercial fishermen.Also, the Delta farmers would be put out of business by the tunnels because the salt water frome the Bay will intrude further into the Delta as a result of limited fresh water flow through the Delta. The farmers cannot farm with salt water because it would kill there crops. In fact, the majority of California's vegetables come from Delta Farms. I have been a boater on the Delta my whole life. The Delta is one of the most scenic places to boat in California and I do not want to see it destroyed so thirsty crops can be grown in the wrong environment. Lastly, there are other solutions that help California's water without harming the environment. They include repairing existing Delta levees and fish screens on texisting export pumps. The repare of Delta levees would only cos \$4 million versus the \$17 billion for the tunnels. Also, repairing the current fish screens on the existing pumps would allow water to flow through the Delta and be exported reasonably without harming wildlife.</p>
Chuck Cadwallader	San Jose, CA	2017-06-20	Enough is enough! Common sense should prevail that this is such a bad idea. Leave the Delta alone! These tunnels are a distarous idea and will have negative impact on the delicate Delta ECO System.
Christian Rodriguez	Calistoga, CA	2017-06-20	I love the delta and love fishing !
Karl Hansen	Napa, CA	2017-06-20	I opposed the modification and alteration of the Bay/Delta Biota.
Miles Kaneko	Berkeley, CA	2017-06-20	I'm signing because I am very passionate about the delta and fishing. I don't want to lose one of the best Bass fisheries in the world
Kim Johnson	Auburn, CA	2017-06-20	I am against the tunnels! Nothing good for our Delta comes with this rediculous water grab!
David Cowell	Grass Valley, CA	2017-06-20	I believe that the tunnels will kill the Delta and all its wild fish by allowing salt water to intrude up river.
karen wilson	vallejo, CA	2017-06-20	you must measure the water available for export before Delta Plan Amendments, instead store available exports well south of the Delta
Deb Gesler	Walnut Grove, CA	2017-06-20	The tunnels are not the solution.
Bradley Winchell	Stockton, CA	2017-06-20	I love the Delta just the way it is. Governor doesn't care if it dry's out he is more interested in the Southern half.
Tim Martinez	Stockton, CA	2017-06-20	The Delta Tunnels doesn't solve the problem especially if we are in a drought. It just moves water. We need more water storage and re-charge!!
Stephanie Stensvold	Concord, CA	2017-06-20	The delta tunnels do not repair the broken policies that wreak havoc on the limited supply of water in California.
Barbara Breen	Marina, CA	2017-06-20	Of my concern for the environment.
Lisa Greenstein	El Cerrito, CA	2017-06-20	Water conservation is what is needed...drought tolerant gardens, not delta water.
andrew Newman	Davis, CA	2017-06-20	I dont think this is a sustainable sollution

Brian Hirt	Oakley, CA	2017-06-20	I have been a life long supporter of Gov.Brown. All the way back to his "moonbeam" days. I don't know why after being such a "Green" politician, he is now trying to pass such a destructive bill with these pipelines!!! I am a 55 year resident of our great and very fragile Delta. These tunnels/pipeline were turned down once before because of the ecological/habitat destruction they will cause... for what? Browns legacy? It is not Northern Californias responsibility to agree to the destruction of our precious Delta because of POOR PLANING by the IDIOTS who thought building a MEGALOPOLIS IN A DESERT OIL FIELD(which is what the L.A Basin is) would be a good idea!! DESALINATION,,,DESALINATION!!! NOT DESTRUCTION!!!
Dinah Abbott	Deal Island, MD	2017-06-20	I want to restore the delta.
Rob Hernandez	Torrance, CA	2017-06-20	Tell me how this affects water going to So. Cal. And how Metropolitan Water District is involved. As far as I know now MWD is scammin So.Cal on the cost of the water by a huge margin.
